Police Power and Race Riots Cathy Lisa Schneider, 2014-07-17 Three weeks after Lyndon Johnson signed the Civil Rights Act of 1964 a New York City police officer shot and killed a fifteen year old black youth inciting the first of almost a decade of black and Latino riots throughout the United States In October 2005 French police chased three black and Arab teenagers into an electrical substation outside Paris culminating in the fatal electrocution of two of them Fires blazed in Parisian suburbs and housing projects throughout France for three consecutive weeks Cathy Lisa Schneider explores the political legal and economic conditions that led to violent confrontations in neighborhoods on opposite sides of the Atlantic half a century apart Police Power and Race Riots traces the history of urban upheaval in New York and greater Paris focusing on the interaction between police and minority youth Schneider shows that riots erupted when elites activated racial boundaries police engaged in racialized violence and racial minorities lacked alternative avenues of redress She also demonstrates how local activists who cut their teeth on the American race riots painstakingly constructed social movement organizations with standard nonviolent repertoires for dealing with police violence These efforts along with the opening of access to courts of law for ethnic and racial minorities have made riots a far less common response to police violence in the United States today Rich in historical and ethnographic detail Police Power and Race Riots offers a compelling account of the processes that fan the flames of urban unrest and the dynamics that subsequently quell the fires

Board of Supervisors, 1899 Remembering the Sabbatical Years of 2016 Joseph F. Dumond, 2013-02-21 Remembering the Sabbatical years of 2016 was written as simply as possible to explain how anyone could prove from their own Bibles when the Sabbatical and Jubilee Years are Having written The Prophecies of Abraham in 2010 many people struggled to understand the chronology which is crucial in order to know precisely where we are in these last days now Because so many struggled we wrote Remembering the Sabbatical years of 2016 so that even an 8 year old could then explain it Remembering the Sabbatical year of 2016 shows you all the known biblical historical and artifacts that mention the Sabbatical years Then we show you how they all line up with each other and from that you can count down to our time now We also show you where the Sabbatical years were derailed in history and taken away from the proper time of observing them Once you have read this book and proven these facts for yourself then you will understand we are in the 120th Jubilee cycle Then once you see the curses that have been set out in a specific order of events the nightly news becomes surreal as you can then see these curses happening on the news Order you copy of Remembering the Sabbatical year of 2016 today and begin to understand these last days unlike anyone else ever has Thackeray's Works William Makepeace Thackeray, 1891

Transport, Climate Change and the City Robin Hickman, David Banister, 2014-02-05 Sustainable mobility has long been sought after in cities around the world particularly in industrialised countries but also increasingly in the emerging cities in Asia Progress however appears difficult to make as the private car still largely fuelled by petrol or diesel remains the mainstream mode of use Transport is the key sector where carbon dioxide CO2 emissions seem difficult to reduce Transport Climate Change and the City seeks to develop achievable and low transport CO2 emission futures in a range of international case studies including in London Oxfordshire Delhi Jinan and Auckland The aim is that the scenarios as developed and the consideration of implementation and governance issues can help us plan for and achieve attractive future travel behaviours at the city level The alternative is to continue with only incremental progress against CO2 reduction targets to sleepwalk into climate change difficulties oil scarcity a poor quality of life and to continue with the high traffic casualty figures The topic is thus critical with transport viewed as central to the achievement of the sustainable city and reduced CO2 emissions City
