City Infernal:

City Infernal Edward Lee, 2021-12-05 Includes a new previously unpublished short story A Very Bad Day in Hell Hell is a city Forget the old fashioned sulphurous pit you may have read about Over the millennia Hell has evolved into a bustling metropolis with looming skyscrapers crowded streets systemized evil and atrocity as the status quo Cassie thought she knew all about Hell But when her twin sister Lissa committed suicide Cassie found that she was able to travel to the real thing the city itself Now even though she s still alive Cassie is heading straight to Hell to find Lissa And the sights she sees as she walks among the damned will never be in any tourist guidebook *Theology and Horror* Brandon R. Grafius, John W. Morehead, 2021-03-02 Scholars of religion have begun to explore horror and the monstrous not only within the confines of the biblical text or the traditions of religion but also as they proliferate into popular culture This exploration emerges from what has long been present in horror an engagement with the same questions that animate religious thought questions about the nature of the divine humanity s place in the universe the distribution of justice and what it means to live a good life among many others Such exploration often involves a theological conversation *Theology and Horror Explorations of the Dark Religious Imagination* pursues questions regarding non physical realities spaces where both divinity and horror dwell Through an exploration of theology and horror the contributors explore how questions of spirituality divinity and religious structures are raised complicated and even sometimes answered at least partially by works of horror **Headstone City** Tom Piccirilli, 2006-02-28 Tom Piccirilli is the master of the Southern gothic quietly building horror where the chills grow with increasing strangeness Denver Post A haunted man must settle his accounts with the living and the dead The night Johnny Danetello drove a dying girl through the streets of Brooklyn in his cab he was trying to save her life Instead he ran down a cop and lost her and his freedom Every day in prison Johnny knew that Angie Monticelli s family blamed him for her death and that going home would be suicide But Johnny has unfinished business with his former friend turned mob boss Vinny Monticelli Now Johnny has returned to converse with the doomed and the dead and wait for Vinny to make his move Survivors of a long ago freak accident the two men share access to alternate realities no one else can know and to a past and present that will all become the same in a city only one of them can leave alive In a genre where twisted souls and violence are the norm Piccirilli s work stands out for how it blends these elements with a literate sensibility Publishers Weekly **BONUS** This edition contains an excerpt from Tom Piccirilli s *The Last Kind Words* **The Forbidden Body** Douglas E. Cowan, 2022-05-17 Throughout history the religious imagination has attempted to control nothing so much as our bodies what they are and what they mean what we do with them with whom and under what circumstances how they may be displayed or more commonly how they must be hidden Religious belief and mandate affect how our bodies are used in ritual practice as well as how we use them to identify and marginalize threatening religious Others This book examines how horror culture treats religious bodies that have stepped or been pushed out of their proper place Unlike most books on religion and

horror This book explores the dark spaces where sex sexual representation and the sexual body come together with religious belief and scary stories Because these intersections of sex horror and the religious imagination force us to question the nature of consensus reality supernatural horror especially as it concerns the body often shows us the religious imagination at work in real time It is important to note that the discussion in this book is not limited either to horror cinema or to popular fiction but considers a wide range of material including literary horror weird fiction graphic storytelling visual arts participative culture and aspects of real world religious fear It is less concerned with horror as a genre which is mainly a function of marketing and more with the horror mode a way of storytelling that finds expression across a number of genres a variety of media and even blurs the boundary between fiction and non fiction This expanded focus not only deepens the pool of potential examples but invites a much broader readership in for a swim **Spaces and Meanings** Olga

Lavrenova,2019-03-25 This book examines the problem of relationships between culture and space Highlighting the use of semiotics of culture as a basic concept of research it describes the power of the cultural landscape in the context of culture philosophical research Opening with a discussion of the existence of culture in space it establishes basic concepts such as noosphere and pneumatosphere The author acknowledges the early contributions of thinkers like Vladimir Vernadsky and Pierre Teilhard de Chardin who first observed that human activity has become a geological force Introducing time and space to the discussion the author then describes the nature of mythological time eternity versus timelessness and the semantics of sacred landscapes space and ritual These concepts are further developed in discussions of the metaphorical nature of cultural landscape and the city as metaphor The book explores semiotics in the cultural landscape examining the genesis of concepts from geographical images to signs and the axiological dimension of geographical images In her approach to the idea of cultural landscape as text she provides detailed examples including the Russian landscape as agent provocateur of the text and the culture philosophical aspects and semantics of travel It establishes the cultural landscape as a phenomenon of culture that is fixed in geographical space with the help of semiotic mechanisms a specific area of culture of life possessing functional and ontological self sufficiency This book appeals readers and researchers interested in the philosophy of culture semiotics of space and the philosophical dimensions of culture and geography *The Hung Society Or the Society of Heaven and Earth* John Sebastian Marlow Ward,William George Stirling,1926 City of God...
