Ministerio de Justicia e Instrucción Pública,1927 **Driving Terror** Karen Robert,2025-03-04 *Driving Terror* tells the story of twenty four Ford autoworkers in Argentina who were tortured and disappeared for their union activism in 1976 miraculously survived and pursued a decades long quest for truth and justice In December 2018 more than four decades after their ordeal the men won a historic human rights case against a military commander and two retired Ford Argentina executives who were convicted of crimes against humanity The book uses this David and Goliath story to explore issues of labor repression and corporate complicity with Argentina s last military dictatorship as well as to shed light on the enormous obstacles facing victims of such crimes Its emphasis on working class activism in the arenas of labor and human rights introduces North American readers to a new narrative of contemporary Argentine history The Ford survivors story intertwines with the symbolic evolution of the car the men helped build at Ford the Falcon sedan The political polarization and violence of the Cold War era transformed the Falcon from a popular family car to a tool of state terror after the coup of 1976 when it became associated with the widespread practice of disappearance Its meaning continued to evolve after the return to democracy when artists and activists used it as a symbol of military impunity during Argentina s long term struggles over justice and memory *Spain and Spanish America in the Libraries of the University of California: The general and departmental libraries* University of California, Berkeley.
