Civic Repentance:

Repentance Amitai Etzioni, David E. Carney, 2000-01-01 There is no consensus about what someone who has violated society's rules must do in order to be fully restored to the community. Although repentance is a prominent idea in religions ranging from Judaism, Christianity, and Islam to Buddhism and Hinduism, its use in civic culture is vague and inconsistent. For example, is remorse the same as repentance? Drawing from a variety of religious and civic perspectives, the renowned contributors to this book—from the fields of theology, philosophy, and the social sciences—offer a broad understanding of repentance and its many applications. The essays question the legitimacy of repentance as a religious concept for the civic culture, exploring the way in which the religious origins of repentance might both illuminate and facilitate our civic usage of the idea. Excellent for theologians, philosophers, moral ethicists, and anyone asking, "Who deserves a second chance?" **Civic**

Repentance Amitai Etzioni, 1999 This collection of essays by scholars of diverse backgrounds explores the notion of repentance in our culture, focusing on individuals who have been excluded from society as a result of violating its laws. What must these individuals do to gain redemption and be readmitted? Amitai Etzioni argues that the lack of a well-grounded concept of civic repentance has significant negative social consequences for our society. Denying people the opportunity to regain their social standing and membership in their communities is simply unfair, and the absence of such opportunities for restoration through repentance exacts heavy social costs. The essays in this collection address these issues from a variety of perspectives and discuss possible ways of filling this void, including restorative justice, physician rehabilitation programs, and religious reconciliation rituals. *Repentance* Amitai Etzioni, David Carney, 1997 Drawing from a variety of religious and civic perspectives, the renowned contributors to this book—from the fields of theology, philosophy, and the social sciences—offer a broad understanding of repentance and its many applications. Configuring Community Parvati Nair, 2004 Annotation The concept of community has become central to constructions of Spanish identities since the Transition to democracy. Contemporary Spain witnesses a political, social, and economic resurgence of community, which both cuts across and is prioritized over nation. Yet few studies of contemporary Spanish culture deal with this concept. This book aims therefore to fill a gap in Spanish cultural studies by providing an in-depth analysis of the intersections of theories, narratives, and concepts of community identities across a broad range of media. Literature, film, music, and photography are analysed here in order to explore the diverse means by which community is imagined and constructed. This is a strongly interdisciplinary study bringing together cultural studies and ethnography. The specific texts that are analysed are located within a larger framework provided by Spain's involvement in processes of globalization. Unusual in this study therefore is the use of fieldwork and interview, as well as the application of the work of cultural theorists to the Spanish context. This book thus extends the field of Spanish cultural studies through its

original and deliberate examination of community it is equally relevant to a more general reading public interested in the diverse media covered here By the same token this book is of relevance to scholars in the Arts Social Sciences and Humanities through its exploration and application of the ideas of theorists of modernity space and time BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
