intrinsic part of the international system with strategy being the means by which military power may be used to achieve political objectives Hence given the destructiveness of modern weapons it is the prime aim of the strategic doctrines of the major powers not to wage war but to use their military potential to further their interests by less catastrophic means However outside the Cold War superpower confrontation strategy exhibits many of its traditional aspects This book analyses both types of strategy variations *Whitaker's Cumulative Book List* ,1926 **The Bookseller** ,1982 Journal of the American Musicological Society American Musicological Society,1995 **Antiquarian Book Monthly Review** ,1985
