Ancient Christian Gospels Their History And Development:

Ancient Christian Gospels Helmut Koester,1990 In this magisterial volume which is destined to become the standard test for studying the tradition and history of the early Christian Gospel literature the author treats more than a dozen Gospel writings from the first two centuries These Gospels include more than the standard canonical Gospels covering also such writings as the Gospel of Thomas the Apocryphon of James and the Gospel of Mary and others Ancient Christian Gospels Helmut Koester,1990 Ancient Christian Gospels Helmut Koester,1998 *Early Christian Thinkers* Paul Foster,2011-07-11 An international team of top scholars introduces a pivotal early moment in the history of orthodox doctrine through the lives and works of key second and third century Christians The Early Christian Centuries Philip Rousseau,2014-06-06 Charting the first six hundred years of the Christian movement THE EARLY CHRISTIAN CENTURIES carries the reader from the world of second temple Judaism to the Byzantine age the rise of Islam and the beginnings of medieval European polities With a combination of rare tact and acuity Philip Rousseau takes the measure of a generation of scholarship on early Christianity and the late Roman world He stresses the importance of shifting historical consciousness the continuity and development of ideas and the urge for social respectability Paying the greatest attention to the inner components of Christian life the resulting story captures fully the major figures Paul the gospel writers the early apologists and the great figures of the patristic age including the Cappadocian Fathers Augustine and Gregory the Great Early Christian Voices David Warren,Ann Graham Brock,David Pao,2021-10-01 This collection of studies in honor of Fran ois Bovon highlights the rich diversity found within early expressions of Christianity as evidenced in ancient texts traditions symbols and motifs Old labels like apocrypha or heresy that for centuries have suppressed much of this evidence are removed previous assumptions are questioned and the old data are examined afresh along with the latest discoveries The studies fall into six areas ancient gospels acts early Christian movements ancient interpretations art and manuscripts Contributors include James Robinson Helmut Koester Harold Attridge Karen King and Jean Daniel Kaestli **Orthodoxy and Heresy in Early Christian Contexts** Paul A. Hartog,2015-01-30 Eighty years ago Walter Bauer promulgated a bold and provocative thesis about early Christianity He argued that many forms of Christianity started the race but one competitor pushed aside the others until this powerful orthodox version won the day The victors re wrote history marginalizing all other perspectives and silencing their voices even though the alternatives possessed equal right to the title of normative Christianity Bauer s influence still casts a long shadow on early Christian scholarship Were heretical movements the original forms of Christianity Did the heretics outnumber the orthodox Did orthodox heresiologists accurately portray their opponents And more fundamentally how can one make any objective distinction between heresy and orthodoxy Is such labeling merely the product of socially situated power Did numerous valid forms of Christianity exist without any validating norms of Christianity This collection of essays each written by a relevant authority tackles such questions with scholarly acumen and careful attention

to historical cultural geographical and socio rhetorical detail Although recognizing the importance of Bauer s critical insights innovative methodologies and fruitful suggestions the contributors expose numerous claims of the Bauer thesis in both original and recent manifestations that fall short of the historical evidence With contributions from Rodney Decker Carl Smith William Varner Rex Butler Bryan Litfin Brian Shelton David Alexander Edward Smither Glen Thompson **The Oxford Companion to Christian Thought** Adrian Hastings, Alistair Mason, Hugh S. Pyper, 2000-12-21 Embracing the viewpoints of Catholic Protestant or Orthodox thinkers of conservatives liberals radicals and agnostics Christianity today is anything but monolithic or univocal In *The Oxford Companion to Christian Thought* general editor Adrian Hastings has tried to capture a sense of the great diversity of opinion that swirls about under the heading of Christian thought Indeed the 260 contributors who hail from twenty countries represent as wide a range of perspectives as possible Here is a comprehensive and authoritative though not dogmatic overview of the full spectrum of Christian thinking Within its 600 alphabetically arranged entries readers will find lengthy survey articles on the history of Christian thought on national and regional traditions and on various denominations from Anglican to Unitarian There is ample coverage of Eastern thought as well examining the Christian tradition in China Japan India and Africa The contributors examine major theological topics such as resurrection the Eucharist and grace as well as controversial issues such as homosexuality and abortion In addition short entries illuminate symbols such as water and wine and there are many profiles of leading theologians of non Christians who have deeply influenced Christian thinking including Aristotle and Plato and of literary figures such as Dante Milton and Tolstoy Most articles end with a list of suggested readings and the book features a large number of cross references *The Oxford Companion to Christian Thought* is an indispensable guide to one of the central strands of Western culture An essential volume for all Christians it is a thoughtful gift for the holidays **Other Early Christian Gospels** Andrew Bernhard, 2007-11-27 *Other Early Christian Gospels* collects all the recently recovered Greek manuscripts containing parts of long lost early Christian gospels into a single volume *The History of Early Christian Literature* Hermann Freiherr von Soden, 1906 **The Complete Gospels**, 1994 Narrative gospels Sayings gospels Infancy gospels Fragmentary gospels Jewish Christian gospels Orphan sayings and other stories **The Gospel of John and the Acts** Philip Schaff, 1888 **The Catholic Biblical Quarterly** Wendell Stephen Reilly, 1996 Includes various reports of the Association *The New Testament* Dennis C. Duling, Norman Perrin, 1994 The Third Edition of this respected text represents a major rewrite The authors have given thorough attention to the details of inclusive language while covering social historical and literary historical factors Coverage includes the synoptic gospels and Acts and the historical Jesus as the presupposition of the New Testament **The Jesus Tradition in Q** Dale C. Howard, 2001-05-23 Disease and Healing in the New Testament is a comprehensive and critical examination of New Testament data relating to disease and healing from scientific and medical perspectives as well as theological perspectives Particular attention is given to the recorded healings by Jesus in the Gospels and by the Apostles in Acts relating them to modern medical concepts particularly diagnostic categories This book argues that the healings undertaken by Jesus and the Apostles show the consistent and coherent pattern of conditions amenable to folk medicine
