Glotz,2013-07-04 Originally published between 1920 1970 The History of Civilization was a landmark in early twentieth century publishing It was published at a formative time within the social sciences and during a period of decisive historical discovery The aim of the general editor C K Ogden was to summarize the most up to date findings and theories of historians anthropologists archaeologists and sociologists This reprinted material is available as a set or in the following groupings Prehistory and Historical Ethnography Set of 12 0 415 15611 4 800 00 Greek Civilization Set of 7 0 415 15612 2 450 00 Roman Civilization Set of 6 0 415 15613 0 400 00 Eastern Civilizations Set of 10 0 415 15614 9 650 00 Judaeo Christian Civilization Set of 4 0 415 15615 7 250 00 European Civilization Set of 11 0 415 15616 5 700 00 **Ancient Greece at Work** Gustave Glotz,1926 **Ancient Greece at Work** Gustave Glotz,1936 **Ancient Greece at Work** Gustave Glotz,1965 **Ancient Greece at Work** Gustave Glotz,1996 **The Classical Review** ,1928 *The Year's Work in Classical Studies* Classical Association (Great Britain),1920 **Travel and Travellers of the Middle Ages** Arthur Percival Newton,1930 *Death Customs* Effie Bendann,1930 *Perspectives on Working Life* Matthew Etherington,2021-02-24 This book serves to begin an important discussion about work an activity that consumes most of our lives Our work means a lot to us even to those who do not enjoy the toil This text investigates work from diverse worldviews theories and viewpoints including cultural religious humanist and Indigenous It operates on the premise that our work lives can be more deeply understood and appreciated when exposed to perspectives of reality that are different from

our own Moving closer to understanding different ways of knowing and experiencing work will yield new insights about the intersection of relationships and crisis at work Hasidic Psychology Mordechai Rotenberg,2018-01-16 Interest in the impact of ethical systems and social or religious ideologies on socio behavioral patterns is a longstanding theme in social science research While interest may have begun with Max Weber and his thesis of the relationship between the Protestant ethic and the spirit of capitalism it extends far beyond this Surprisingly few studies have delved into the socio behavioral patterns emanating from Jewish ethics This book with a new introduction by the author fills that gap As Hasidic Psychology makes clear Jewish ethics are unique in many ways especially in that they are essentially other centered Man s ability to affect his own future and interpersonal relations are explained according to the theory of contraction popularized in Hasidic thought God by contracting Himself to evacuate space for the human world bestowed upon man the power and responsibility to determine his own future and even affect God s disposition In the first part of the book the sociological structural concept of mono versus multiple ideal labeling is introduced This concept refers to a social system in which diverse material and spiritual actualization patterns are structurally introduced as equal social ideals In the second part basic tenets of classic interaction and socialization are compared to the interpersonal perspective and the contraction theory is explained as a process of mutual emulation whereby father and son affect each other In the third part a functional approach to deviance is developed through the Hasidic process known as ascend via descend **The Columbian Cyclopedia** ,1897 *Leisure's Legacy* Robert A. Stebbins,2017-07-17 This book illustrates how leisure as with other complex ideas that hold currency in today s world suffers at the level of common sense due to a combination of oversimplification moral depreciation and even lack of recognition Leisure s modern legacy is both profound and immense as a product of approximately 45 years of steady research application and theory development The common sense view of free time activities therefore can and should be challenged Stebbins provides this confrontation by tackling four particular themes that gatekeepers within the institutions of higher education and funding agencies for research often fail to attach adequate resources to the idea of leisure that the general population are guided by certain common sense definitions and largely unaware of how an informed view of free time could be beneficial that practitioners within certain fields continue to refuse to engage with the idea of leisure despite its benefit for their clients and that the weak reception of the science of leisure within mainstream social sciences suggests a similarly warped understanding of how people use their free time Leisure s Legacy will be of interest to scholars of Leisure Studies and all those wishing to learn more about the vital importance of leisure in modern Western society *A Classical Dictionary* Charles Anthon,1872 **Ancient History ... for the Use of Families and Schools** Celestia Angenette Bloss,1885 *The Hasidic Psychology* ,2003-11-01 Interest in the impact of ethical systems and social or religious ideologies on socio behavioral patterns is a longstanding theme in social science research While interest may have begun with Max Weber and his thesis of the relationship between the Protestant ethic and the spirit of capitalism it extends far beyond this

Surprisingly few studies have delved into the socio behavioral patterns emanating from Jewish ethics This book with a new introduction by the author fills that gap As Hasidic Psychology makes clear Jewish ethics are unique in many ways especially in that they are essentially other centered Man s ability to affect his own future and interpersonal relations are explained according to the theory of contraction popularized in Hasidic thought God by contracting Himself to evacuate space for the human world bestowed upon man the power and responsibility to determine his own future and even affect God s disposition In the first part of the book the sociological structural concept of mono versus multiple ideal labeling is introduced This concept refers to a social system in which diverse material and spiritual actualization patterns are structurally introduced as equal social ideals In the second part basic tenets of classic interaction and socialization are compared to the interpersonal perspective and the contraction theory is explained as a process of mutual emulation whereby father and son affect each other In the third part a functional approach to deviance is developed through the Hasidic process known as ascend via descend
