Ancient History from Coins Christopher Howgego,2002-09-11 Like other volumes in this series Ancient History from Coins demystifies a specialism introducing students from first year upwards to the techniques methods problems and advantages of using coins to do ancient history Coins are a fertile source of information for the ancient historian yet too often historians are uneasy about using them as evidence because of the special problems attaching to their interpretation The world of numismatics is not always easy for the non specialist to penetrate or understand with confidence Dr Howgego describes and analyses the main contributions the study of coins can make to ancient history showing through numerous examples how the character patterns and behaviour of coinage bear on major historical themes Topics range from state finance and economic policy to imperial domination and political propaganda through coins types The period covered by the book is from the invention of coinage ca 600BC to AD 400 *Some Notes on Ancient Dies and Coining Methods* Cornelius Clarkson Vermeule,1954 Coinage in the Roman Economy, 300 B.C. to A.D. 700 Kenneth W. Harl,1996-07-12 In Coinage in the Roman Economy 300 B C to A D 700 noted classicist and numismatist Kenneth W Harl brings together these two fields in the first comprehensive history of how Roman coins were minted and used The Coinage of Metapontum Sydney Philip Noe,1927 *The Numismatic Circular and Catalogue of Coins, Tokens, Commemorative & War Medals, Books & Cabinets* Spink & Son,1904 *American Journal of Archaeology* ,1923 **Numismatic Circular List of Coins, Medals, War Medals, Books, Etc. Offered for Sale** Spink & Son,1894 **The Journal of Hellenic Studies** ,1924 **The Nation** ,1885 *The Numismatic Chronicle and Journal of the Royal Numismatic Society* ,1929 **Numismatic Chronicle, and Journal of the Royal Numismatic Society** ,1909 Vols for 1842 include the proceedings of the Society **The Year's Work in Classical Studies** ,1925 *Money and Monetary Policy in Early Times* Arthur Robert Burns,1927 **Transactions - Newcomen Society for the Study of the History of Engineering and Technology** Newcomen Society (Great Britain),Newcomen Society for the Study of the History of Engineering and Technology,1922 *Macedonian Regal Coinage to 413 B.C.* Doris Raymond,1953 **Debasement** Kevin Butcher,2020-04-30 The debasement of coinage particularly of silver was a common feature of pre modern monetary systems Most coinages were issued by state authorities and the condition of a coinage is often seen rightly or wrongly as an indicator of the broader fiscal health of the state that produced it While in some cases the motives behind the debasements or reductions in standards are clear in many cases the intentions of the issuing authorities are uncertain Various explanations have been advanced fiscal motives such as a desire to profit or a to cover a deficit caused by the failure to balance expenditure and revenues monetary motives such as changing demand for coined money or a desire to maintain monetary stability in the face of changing values of raw materials or labour

costs pressure from groups within society that would profit from debasement misconduct at the mint or the decline of existing monetary standards due to circulation and wear of the coinage in circulation Certain explanations have tended to gain favour with monetary historians of specific periods partly reflecting the compartmentalization of scholarship Thus the study of Roman debasements emphasizes fiscal deficits whereas medievalists are often more prepared to consider monetary factors as contributing to debasements To some extent these different approaches are a reflection of discrepancies in the amount of documentary evidence available for the respective periods but the divide also underlines fundamentally different approaches to the function of coinage Romanists have preferred to see coins as a medium for state payments whereas medievalists have often emphasized exchange as an important function of currency The volume is inter disciplinary in scope Apart from bringing together monetary historians of different periods it also contains contributions from archaeometallurgists who have experience with the chemical and physical composition of coins and technical aspects of production of base alloys American Journal of Numismatics ,1900
