Old Tracks and New Landmarks Mary Adelaide Walker, 1897 *Paths of the Ancients: Alfred Watkins' The Old Straight Track* Alfred Watkins, 2025-06-30 Discover the original theory of ley lines the ancient straight trackways proposed by Alfred Watkins to connect prehistoric sites ancient monuments and sacred landscapes across Britain [Tracks & Trails](#)

Leonard Rossell, 1928 *Dinosaur Tracks and Other Fossil Footprints of Europe* Martin Lockley, Christian Meyer, 2000-03-07 The long and distinguished tradition of tracking dinosaurs and other extinct animals in Europe dates back to the 1830s Yet this venerable tradition of scientific activity cannot compare in magnitude and scope with the unprecedented spate of discovery and documentation of the last few years Now following on the heels of his *Dinosaur Tracks and Other Fossil Footprints of the Western United States* Martin Lockley teams up with Christian Meyer to present an up to date synthesis of the recent findings in the field of European fossil footprints Drawing extensively on their own research results from studies in Britain Switzerland Portugal Spain and elsewhere the authors create a dynamic picture of mammal reptile bird and amphibian track makers throughout more than 300 million years of vertebrate evolution placed in the context of Europe s changing ancient environments Beginning with an introduction to tracking and a history of the European tracking tradition *Dinosaur Tracks and Other Fossil Footprints of Europe* then charts a broad path of evolutionary proliferation from the proto dinosaurs of the Early Triassic period to the dinosaurs decline and disappearance in the Upper Cretaceous The survey continues into the age of mammals and birds ending with the cave art of our Paleolithic ancestors **Ancient Tracks** Des Hannigan, 1998-06-01 [Beliefs, Rituals, and Symbols of the Modern World](#) Dean Miller, 2014-08-01 Learn about the ethereal the other worldly and the unknown of the twentieth and twenty first centuries in this fascinating look at the supernatural in the modern world **The Timeline of Intelligent Life on Earth** Martin K. Ettington, 2022-09-06 I m fascinated with Ancient History because there are continuous new discoveries which push back the dawn of civilization by thousands of years In the last couple of decades the discoveries at Gobekli Tepe in eastern Turkey pushed back man made structures to the time period of 9 000 11 000 B C Thousands of years before the next know civilizations existed This book includes my research on ancient sites around the world underground structures giants the destruction of civilization about 10 500 B C the real Atlantis and out of place objects which can be millions of years old With this collection of a wide variety of information I decided that what is needed is a full timeline of intelligent life on Earth from millions of years ago to the present There are a lot of gaps in this information but enough records findings and discoveries exist to propose an initial timeline of intelligent life on Earth going back hundreds of millions of years Yes I m saying intelligent life has existed on Earth that long and since humanity and even primates don t exist in those times at all aliens must have lived on the Earth at that time There are three parts to this book Part One Millions of Years Ago This includes stories of aliens existing on Earth in our history and many out of place objects made by intelligent beings and the fossil record which provides supporting

evidence that intelligent life did exist at those times Part Two The Unknown Civilizations of Man Here we have evidence of structures built by man but way before any accepted records that civilization or man made constructions existed Some of these things may go back 100 000 years ago Part Three Post Ice Age Civilizations This part includes evidence that the Younger Dryas event was actually comets striking the Earth which caused major disasters and probably the destruction of civilizations about 10 500 B C My intention is that this timeline will provide a skeleton of mankind and intelligent life s early history on Earth which can be filled in overtime to become much more detailed and prove the truth of this point of view to skeptics worldwide

The Ley Line Legacy brings together Alfred Watkins two groundbreaking works Early British Trackways and The Old Straight Track in a single volume charting the origins of one of Britain s most enduring landscape theories First published in 1922 Early British Trackways introduced Watkins revolutionary concept of leys straight alignments linking prehistoric monuments burial sites and ancient landmarks across the British countryside Drawing from detailed fieldwork in Herefordshire Wiltshire Berkshire and beyond Watkins argued that these linear pathways once served as a form of practical navigation and sacred geography In The Old Straight Track 1925 Watkins further developed his theory with expanded research and wider ranging examples offering a deeper examination of Britain s ancient landscape through both archaeological observation and folkloric tradition His work traced the alignment of stone circles mounds and waypoints proposing an interconnected web of pre Roman routes shaped by early civilisations Although Watkins ideas were met with scepticism by archaeologists and geographers they ve since become foundational in the study of sacred geography with ley lines reinterpreted in spiritual and esoteric traditions The Ley Line Legacy presents these influential texts in one edition offering a detailed exploration into the mystical energies and folklore of Britain s ancient paths
