1850 Print Culture and the Formation of the Anarchist Movement in Spain, 1890-1915 James Michael Yeoman,2019-10-02
This book analyzes the formation of a mass anarchist movement in Spain over the turn of the twentieth century In this period
the movement was transformed from a dislocated collection of groups and individuals into the largest organized body of
anarchists in world history the anarcho syndicalist National Confederation of Labour Confederaci n Nacional del Trabajo CNT
At the same time anarchist cultural practices became ingrained in localities across the whole of Spain laying foundations
which maintained the movement s popular support until the end of the Spanish Civil War in 1939 The book shows that
grassroots print culture was central to these developments driving the development of ideology and strategy broadly defined
as terrorism education and workplace organization and providing an informal structure to a movement which shunned
recognized leadership and bureaucracy This study offers a rich analysis of the cultural foundations of Spanish anarchism This
emphasis also challenges claims that the movement was exceptional or peculiar in its formation by situating it alongside
other decentralized bottom up mobilizations across historical and contemporary contexts from the radical pamphleteering
culture of the English Civil War to the use of social media in the Arab Spring *The anarchist peril, tr., ed. and enlarged by*
