Ancient Sites In Galilee:

Ancient Sites in Galilee Salomon E. Grootkerk, 2000 An inventory of all ancient sites now known in Galilee The book is divided into 32 regions each represented by a map Each map has its sites numbered The accompanying lists explain all sites chronologically and identify the names the sites have carried in subsequent periods

Ancient Magdala: Archaeological Excavations (2010-2017) Marcela Zapata-Meza, 2025-11-13 This volume presents the Magdala Archaeological Project's findings including the history of Magdala the 2009 synagogue discovery and analyses of archaeological materials It covers aspects of life in Magdala such as fragrances medicines fishing tools and unique objects offering insights from the late Hellenistic to Late Roman periods

Jews, Pagans, and Christians in the Galilee Mordechai Aviam, 2004 This volume holds 21 chapters arranged in chronological order from the Hellenistic to the Byzantine periods each of them based on the results of archaeological excavations or field surveys conducted by the author during the past 25 years It is a summary of field work as well as summaries of studies carried out in Galilee during the last 100 years Further it is a study of the Galileans and their material culture during the 1000 years between the third century BCE and the seventh century CE a long period of time in which the foundation for both the Jesus movement and Mishnaic Judaism were built This book gives scholars of religion history and archaeology much new and concentrated information much of which has never been previously published

Mordechai Aviam was for 11 years the District Archaeologist of the Western Galilee for the Israel Antiquities Authority He is an adjunct professor in residence at the Center for Judaic Studies in the University of Rochester

Archaeology and the Galilean Jesus Jonathan L. Reed, 2002-05-01 Drawing on his years of field experience in Galilee the author illustrates how the archaeological record has been misused by New Testament scholars and how synthesis of the material culture is foundational for understanding Christian origins in Galilee and the Jewish culture out of which they arose

Baal, St. George, and Khidr Robert D. Miller II, 2019-10-10 In Western tradition St George is known as the dragon slayer In the Middle East he is called Khidr Green One and in addition to being a dragon slayer he is also somehow the prophet Elijah In this book Robert D Miller II untangles these complicated connections and reveals how especially in his Middle Eastern guise St George is a reincarnation of the Canaanite storm god Baal another Green One who in Ugaritic texts slays dragons Combining art history theology and archeology this multidisciplinary study demystifies the identity of St George in his various incarnations laying bare the processes by which these identifications merged and diverged Miller traces the origins of this figure in Arabic and Latin texts and explores the possibility that Middle Eastern shrines to St George lie on top of ancient shrines of the Canaanite storm god Baal Miller examines these holy places particularly in modern Israel and around Mount Hermon on the Syrian Lebanese Israeli border and makes the convincing case that direct continuity exists from the Baal of antiquity to the St George Khidr of Christian lore Convincingly argued and thoroughly researched this study makes a unique contribution to such diverse areas as ancient Near Eastern studies Roman history and religion Christian hagiography and iconography

The historical study of the Jesus stories and the transmission of these stories through time have been of seminal importance to historians of religion. Critical historical examination has provided a way for scholars of Christianity for centuries to analyze the roots of legend and religion in a way that allows scholars an escape from the confines of dogma, belief, and theological interpretation. In recent years, historical Jesus studies have opened up important discussions concerning anti-Semitism and early Christianity and the political and ideological filtering of the Jesus story of early Christianity through the Roman Empire and beyond. Entries will cover the classical studies that initiated the new historiography, the theoretical discussions about authenticating the historical record, the examination of sources that have led to the western understanding of Jesus' teachings, and disseminated myth of the events concerning Jesus' birth and death. Subject areas include the history of the historical study of the New Testament, major contributors and their works, theoretical issues and concepts, methodologies and criteria, historical genres and rhetorical styles in the story of Jesus, historical and rhetorical context of martyrdom and messianism, historical teachings of Jesus within historical context of ethics, titles of Jesus, historical events in the life of Jesus, historical figures in the life of Jesus, historical use of Biblical figures referenced in the Gospels, places and regions, institutions, the history of the New Testament within the culture, politics, and law of the Roman Empire. *A Dictionary of the Bible: A-Feasts* James Hastings, 1901. *The Cruise of the Celtic Around the Mediterranean, 1902* R.
