*Aspects of Old Assyrian Trade and Its Terminology* K. R. Veenhof, 1972      **Ancient Anatolia** Captivating History, 2019-12 What sparks curiosity about ancient Anatolia which makes up most of modern day Turkey in the minds of history lovers is the diversity of its peoples throughout its territories and time      Ancient Turkey Seton Lloyd, 1989 Very well written and very readable presented with the mastery and wisdom of long and intimate experience It will awaken and stimulate the interest of lay readers provide a welcome historical frame that is lacking in most accounts of Anatolian archaeology and be an instructive and delightful companion for professional scholars Crawford H Greenewalt Jr University of California Berkeley      **Essays on Ancient Anatolia and Its Surrounding Civilizations** Mikasa no Miya Takahito (principe del Giappone.), 1995      Testing the Canon of Ancient Near Eastern Art and Archaeology Amy Rebecca Gansell, Ann Shafer, 2020 This volume addresses and problematizes the formation and transformation of the ancient Near Eastern art historical and archaeological canon The canon is defined as an established list of objects monuments buildings and sites that are considered to be most representative of the ancient Near East In testing this canon this project takes stock of the current canon its origins endurance and prospects Boundaries and typologies are examined technologies of canon production are investigated and heritage perspectives on contemporary culture offer a key to the future      Essays on Ancient Anatolia in the Second Millennium B.C. Prince Mikasa no Miya Takahito (son of Taishō, Emperor of Japan), 1998      **Areal Diffusion and Genetic Inheritance** Aleksandra IĭUĭr'evna Aĭkhenval'd, Alexandra Y. Aikhenvald, Robert M. W. Dixon, 2006 Two languages can resemble each other in the categories constructions and types of meaning they use and in the forms they employ to express these Such resemblances may be the consequence of universal characteristics of language of chance or coincidence of the borrowing by one language of another s words or of the diffusion of grammatical phonetic and phonological characteristics that takes place when languages come into contact Languages sometimes show likeness because they have borrowed not from each other but from a third language Languages that come from the same ancestor may have similar grammatical categories and meanings expressed by similar forms such languages are said to be genetically affiliated This book considers how and why forms and meanings of different languages at different times may resemble one another Its editors and authors aim a to explain and identify the relationship between areal diffusion and the genetic development of languages and b to discover the means of distinguishing what may cause one language to share the characteristics of another The introduction outlines the issues that underlie these aims introduces the chapters which follow and comments on recurrent conclusions by the contributors The problems are formidable and the pitfalls numerous for example several of the authors draw attention to the inadequacy of the family tree diagram as the main metaphor for language relationship The authors range over Ancient Anatolia Modern Anatolia Australia Amazonia Oceania Southeast and East Asia and Sub Saharan

Africa The book includes an archaeologist's view on what material evidence offers to explain cultural and linguistic change and a general discussion of which kinds of linguistic feature can and cannot be borrowed The chapters are accessibly written and illustrated by twenty maps The book will interest all students of the causes and consequences of language change and evolution
