Cunningham, 2019-06-01 An informative fascinating resource suitable for students researchers and general readers this biographical dictionary is a who was who of world and space explorers giving readers a sense of the human drama the achievements and the challenges that those who go where few or none have gone before must face The explorers covered include Jacques Cousteau Sir Vivian Fuchs John Glenn Jr Aleksei Leonov Annie Peck Valentina Tereshkova and many more

People of the Ecotone Robert Michael Morrissey, 2022-11-01 Winner of the 2023 Hal K Rothman Book Prize for best book in western environmental history from the Western History Association Indigenous power in a significant cultural and ecological borderland In *People of the Ecotone* Robert Morrissey weaves together a history of Native peoples with a history of an ecotone to tell a new story about the roots of the Fox Wars among the most transformative and misunderstood events of early American history To do this he also offers the first comprehensive environmental history of some of North America's most radically transformed landscapes the former tallgrass prairies in the period before they became the monocultural corn belt we know today Morrissey situates the complex rise and fall of the Illinois Meskwaki and Myaamia peoples from roughly the collapse of Cahokia thirteenth to fourteenth century CE to the mid eighteenth century in the context of millennia long environmental shifts as changes to the climate shifted bison geographies and tribes adapted their cultures to become pedestrian bison hunters Tracing dynamic chains of causation from microscopic viruses to massive forces of climate from the deep time of evolution to the specific events of human lifetimes from local Illinois village economies to market forces an ocean away *People of the Ecotone* offers new insight on Indigenous power and Indigenous logics *Past Forward* James Sabathne, Jason Stacy, 2016-09 Over the last fifteen years undergraduate U S history courses have made great progress in incorporating primary sources and diverse voices into the survey However teachers still struggle to find professional writing by working historians in a format useful to undergraduates Also in 2014 the College Board redesigned the AP U S History curriculum and assessments to require students to demonstrate a critical approach to historical writing by professional historians These facts have increased demand among teachers for access to high quality secondary material by professional historians in a single convenient publication *Past Forward* Articles from the *Journal of American History* selects some of the

best articles from The Journal of American History to meet the needs of students and teachers of the U S history survey Exploring all of the required key concepts and historical thinking skills required in the new AP U S History curriculum the book provides pedagogical and historiographical supports for each article It also contains concise academic biographies of the authors that highlight their path to practicing history and their major publications which will draw students deeper into historical discourses

The Missouri Archaeologist, 2000 *Archaeology on the Great Plains* W. Raymond Wood, 1998 This synthesis of Great Plains archaeology brings together what is currently known about the inhabitants of the ancient Plains The essays review the Paleo Indian Archaic Woodland and Plains Village peoples providing information on technology diet settlement and adaptive patterns

The Essential West Elliott West, 2012-10-29 Scholars and enthusiasts of western American history have praised Elliott West as a distinguished historian and an accomplished writer and this book proves them right on both counts Capitalizing on West s wide array of interests this collection of his essays touches on topics ranging from viruses and the telegraph to children bison and Larry McMurtry Drawing from the past three centuries West weaves the western story into that of the nation and the world beyond from Kansas and Montana to Haiti Africa and the court of Louis XV Divided into three sections the volume begins with conquest West is not the first historian to write about Lewis and Clark but he is the first to contrast their expedition with Mungo Park s contemporaneous journey in Africa The Lewis and Clark expedition West begins is one of the most overrated events in American history and one of the most revealing The humor of this insightful essay is a chief characteristic of the whole book which comprises ten chapters previously published in major journals and magazines but revised for this edition and four brand new ones West is well known for his writings about frontier family life especially the experiences of children at work and play Fans of his earlier books on these subjects will not be disappointed In a final section he looks at the West of myth and imagination in part to show that our fantasies about the West are worth studying precisely because they have been so at odds with the real West In essays on buffalo Jesse James and the McMurtry novel Lonesome Dove West directs his formidable powers to subjects that continue to shape our understanding and often our misunderstanding of the American West past and present

Chronicles of Oklahoma James Shannon Buchanan, 1989 **The Genesis of Missouri** William E. Foley, 1989 When Missouri became the twenty fourth state in the Union in 1821 it was already heir to a rich and varied historical legacy From 1673 until the Louisiana Purchase Europeans of different nationalities assisted by the Africans they brought with them competed alternately with Indians and among themselves for control of the land But while land and resources were the target of the struggle the region s cultural identity was being determined by the mingling and clashing of diverse cultures Indian French African Spanish and Anglo American The story of the blending of those diverse cultures in a land rich in resources and beauty is an extraordinary tale Especially appealing to many readers will be the attention Foley gives to common Missourians to the status of women and Blacks and to Indian White relations In this account the pioneer hunters trappers and traders who roamed the Ozark hills and

the boatmen who traded on the Missouri and Mississippi rivers take their places beside the small coterie of prominent St Louisans whose wealth and influence enabled them to dominate the region politically and economically Back cover *Red Earth* Bonnie Lynn-Sherow,2004 Before the great Land Rush of 1889 Oklahoma territory was an island of wildness home to one of the last tracts of biologically diverse prairie In the space of a quarter century the territory had given over to fenced farmsteads with even the racial diversity of its recent past simplified In this book Bonnie Lynn Sherow describes how a thriving ecology was reduced by market agriculture Examining three central Oklahoma counties with distinct populations Kiowas white settlers and black settlers she analyzes the effects of racism economics and politics on prairie landscapes while addressing the broader issues of settlement and agriculture on the environment Drawing on a host of sources oral histories letters and journals and agricultural and census records Lynn Sherow examines Oklahoma history from the Land Rush to statehood to show how each community viewed its land as a resource what its members planted how they cooperated and whether they succeeded Anglo settlers claimed the choice parcels introduced mechanized farming and planted corn and wheat blacks tended to grow cotton on lands unsuited for its cultivation and Kiowas strove to become pastoralists Lynn Sherow shows that as each group vied for control over its environment its members imposed their own cultural views on the uses of nature and on the legitimacy of the other in their own relationship with the red earth Lynn Sherow further reveals that racism both institutionalized and personal was a significant factor in determining how where by whom and to what ends land was used in Oklahoma She particularly assesses the impact of USDA policy on land use and by extension environmental and social change As agricultural agents railroads and local banks encouraged white settlers to plant row crops and convert to market farms they also discriminated against Indians and blacks And as white settlers prospered they in turn altered the relationship of Indians and African Americans with the land The transformation of Oklahoma Territory was a protracted power struggle with one people s relationship to the land rising to prominence while banishing the others from history *Red Earth* provides a perceptive look at how Oklahoma quickly became homogenized mirroring events throughout the West to show how culture itself can be a major agent of ecological change **Nebraska History** Addison Erwin Sheldon,James Lee Sellers,James C. Olson,2018 **The Best American History Essays 2007** NA NA,2016-04-30 This second annual volume from the Organization of American Historians containing the best American history articles published between the summers of 2005 and 2006 provides a quick and comprehensive overview of the topwork and the current intellectual trends in the field of American history With contributions from a diverse group of historians this collection appeals both to scholars and to lovers of history alike **Big Sky Rivers** Robert Kelley Schneiders,2003 To frame his story Schneiders goes back to the nineteenth century journals of fur traders and settlers and in the record of flora fauna floods and human activity he finds evidence of rapid and disruptive change Bison once had the greatest influence on the land and Schneiders depicts an original bison and Indian trail networks on which were overlaid the first torts and towns and then the railroads highways and reservoirs that

reconfigured the region forever *Dictionary of Midwestern Literature, Volume Two* Philip A. Greasley, 2016-08-08 The Midwest has produced a robust literary heritage Its authors have won half of the nation s Nobel Prizes for Literature plus a significant number of Pulitzer Prizes This volume explores the rich racial ethnic and cultural diversity of the region It also contains entries on 35 pivotal Midwestern literary works literary genres literary cultural historical and social movements state and city literatures literary journals and magazines as well as entries on science fiction film comic strips graphic novels and environmental writing Prepared by a team of scholars this second volume of the Dictionary of Midwestern Literature is a comprehensive resource that demonstrates the Midwest s continuing cultural vitality and the stature and distinctiveness of its literature

Encyclopedia of Exploration to 1800 Raymond John Howgego, 2003 A comprehensive reference guide to the history and literature of exploration travel and colonization from the earliest times to the year 1800 The vast scope of the Encyclopedia of Exploration makes it a work unlike any other in its combination of historical biographical and bibliographical data It includes a catalogue of all known expeditions voyages and travels as well as biographical information on the travellers themselves which places them in their historical context The Encyclopedia of Exploration to 1800 is a massive undertaking resulting in a work that extends to 1.2 million words in almost 1200 pages The 2327 major articles have generated index entries totalling more than 7500 names of persons or ships mentioned in the text Within the text itself there are about 4000 cross references between articles Altogether nearly 20 000 bibliographical citations accompany the articles A considerable quantity of information in this book is presented here for the first time in English

The Contested Plains Elliott West, 1998 Deftly retracing a pivotal chapter in one of America s most dramatic stories Elliott West chronicles the struggles triumphs and defeats of both Indians and whites as they pursued their clashing dreams of greatness in the heart of the continent
