The Rider on the White Horse Theodor Storm, 1917 The Rider on the White Horse begins as a ghost story A traveler finds himself caught in dangerously rough weather On an island just offshore he glimpses the specter of a rider on a white horse rising and plunging in the wind and rain Taking shelter at a local inn the traveler mentions the apparition and the local schoolmaster volunteers a story It is a tale of ambition of a young man Hauke Heien who is out not only to make a name for himself but to remake the world of love and family as Hauke and his wife try to come to terms with their late born child's mental retardation and of politics as the community fights back against Hauke's initiatives It is a story too about the crisis of faith of wanting and missing the presence of the divine and of the persistence of superstition It is an appealingly matter of fact picture of rural life a harrowing glimpse of spiritual isolation and a stark vision of the violence of the natural world Finally it is a story about the basis of civilization in the act of human sacrifice

Anticipating Lord of the Flies and The Lottery Theodor Storm's novella limpidly translated by the American poet James Wright is not just the ghost story it first appears to be but an economical and gripping dramatization of some of the bloody questions that haunt the disenchanted modern world
