Boys In Schools Addressing The Real Issues Behaviours Values And Relationships:

Boys in Schools Rollo Browne,1995 Boys in schools addressing the real issues behaviour values and relationships *The Politics of Policy in Boys' Education* M. Weaver-Hightower,2008-11-10 An accessible and original look into the education policy of Australia that considers how it came about how it was steered to the political right how some educators struggled to implement or resist it in their schools and how it applies to other systems Masculinity Goes to School Rob Gilbert,Pam Gilbert,2017-05-18 Originally published in 1998 This book offers a balanced overview of the issues surrounding boys and education It looks beyond the often hysterical debate in the popular media to analyse what is happening with boys in the school system and how this can be understood The authors argue that popular constructions of masculinity affect boys in all parts of their lives in families peer groups and work cultures at home at school at work and at leisure Offering insight into key issues such as literacy sport bad behaviour sexuality race and ethnicity and popular culture this book also looks at programs and approaches to working with boys which have been successful **Teaching Boys** Martin Mills,2020-07-22 Persistently cheeky disruptive even aggressive boys can be found in classrooms everywhere as can the victims of bullying These boys behaviours often pose a problem to themselves as well as to others As the hotly contested debates about boys education swirl around them what can teachers actually do to improve boys performance in the classroom Teaching Boys provides a practical framework for teachers to improve boys education in ways that are appropriate for their school context and also sustainable Drawing on intensive research in classrooms where innovative teachers are achieving good outcomes with boys Keddie and Mills show how other teachers can learn from their success They acknowledge that there are no simple solutions but show that what teachers do in the classroom really does matter They emphasise the importance of understanding the impact of dominant and subversive masculinities at all levels of schooling on both boys and girls What is original about this book is that it marries theory and practice in a way that speaks to the everyday realities and concerns of teachers who work with boys in schools Associate Professor Wayne Martino The University of Western Ontario What is impressive about Teaching Boys is the way in which Keddie and Mills pull together the best research on boys and schooling with the best research on pedagogies Professor Bob Lingard The University of Edinburgh **Questioning the Music Education Paradigm** Lee Bartel,2004-09-15 Twenty three contributors turn a critical lens on the dominant music education paradigm to examine how we teach what we teach for what we teach what is expected of teachers and how we teach them whom we should be teaching and the very assumptions and structures of which we base our practice Contested Bodies John Hassard,Ruth Holliday,2003-10-04 The body occupies a prime position in contemporary theoretical work yet still there is no consensus on exactly what it is and what constitutes it Contested Bodies brings together a number of different accounts and perspectives on the body drawing out some of the key connections and disjunctures from this most contested of topics This volume features fresh and fascinating contributions from some of the leading thinkers and upcoming theorists in the

Challenging Violence in Schools Martin Mills,2001 While violence by boys towards girls is readily recognized as being gender based Mills education U of Queensland Australia argues that all violence of boys in schools is gender based for example contending that the common notion of bullying is an example of boundary policing usually with a homophobic edge which serves to normalize particular constructions of masculinity while also determining where a boy is positioned within a hierarchical arrangement of masculinities Drawing on insights of feminist scholarship he attempts to analyze the possible development of strategies and programs that seek to challenge the existence of gender based violence in schools After discussing the theoretical underpinnings of such work he moves to an exploration of the curriculum and pedagogy issues in relation to challenging dominant notions of masculinity that lead to violence Annotation copyrighted by Book News Inc Portland OR

Raising Boys' Achievement in Primary Schools Molly Warrington, Mike Younger,2006-06 Within the context of empirical research undertaken by the authors during the course of a 4 year research and intervention project on Raising Boys Achievement the book will focus on approaches that

are successful in raising achievement for boys and the reasons for that success It will explore the whole aspect of boys achievement and look at how primary schools are addressing the issue and the processes involved in schools working collaboratively and voluntarily to share good practice Case study material will be used to illustrate the different contexts in which the strategies have been studied and of great importance is the incorporation of boys and girls own perspectives on their educational experiences
