Brazilian Studies and Portuguese Language Instruction in the United States Margarete De Andrade,1969 Literature and Ethics in Contemporary Brazil Vinicius Mariano De Carvalho,Nicola Gavioli,2017-02-24 When Brazil was honored at the Frankfurt Book Fair in 2013 the Brazilian author Luiz Ruffato opened the event with a provocative speech claiming that literature through its pervasive depiction and discussion of otherness has the potential to provoke ethical transformation This book uses Ruffato s speech as a starting point for the discussion of contemporary Brazilian literature that stands in contrast to the repetition of social and cultural clichés By illuminating the relevance of humanities and literature as a catalyst for rethinking Brazil the book offers a resistance to the official discourses that have worked for so long to conceal social tensions injustices and secular inequities in Brazilian society In doing so it situates Brazilian literature away from the exotic and peripheral spectrum and closer to a universal and more relevant ethical discussion for readers from all parts of the world The volume brings together fresh contributions on both canonical contemporary authors such as Graciliano Ramos Rubem Fonseca and Dalton Trevisan and traditionally silenced writing subjects such as Afro Brazilian female authors These essays deal with specific contemporary literary and social issues while engaging with historically constitutive phenomena in Brazil including authoritarianism violence and the systematic violation of human rights The exploration of diverse literary genres from novels to graphic novels from poetry to crônicas and engagement with postcolonial studies gender studies queer studies cultural studies Brazilian studies South American literature and world literature carves new space for the emergence of original Brazilian thought

Brazil Vanderbilt University. Institute for Brazilian Studies,James Bennett Watson,1953 Africas of the Americas ,2008-03-31 The anthropology and history of African American religious formations has long been dominated by approaches aiming to recover and authenticate the historical transatlantic continuities linking such traditions to identifiable African source cultures While not denying such continuities the contributors to this volume seek to transcend this research agenda by bracketing Africa and African pasts as objective givens and asking instead what role notions of Africanness and pastfulness play in the social and ritual lives of historical and contemporary practitioners of Afro Atlantic religious formations The volume s goal is to open up contextually salient claims to African origins to empirical scrutiny and so contribute to a broadening of the terms of debate in Afro Atlantic studies
