Current Widowhood Myths And Realities:

Current Widowhood Helena Znaniecka Lopata, 1996 This book should be read by all those coping with widowhood those studying gender aging or social roles and those providing services to widows Choice This volume provides an overview of the major themes that have characterized the study of widowhood in recent decades There is a richness and depth to the discussion which draws on a large body of research not only on widowhood but also on such related topics as later life marriage caregiving roles friendship ties employment patterns and the changing roles of wife and mother This volume brings together Helena Znaniecka Lopata's insights and understandings based on nearly 30 years of research on widowhood in a variety of contexts The book is well anchored in its focus on widowhood as both a process of transition involving the movement from wife to widow and as a status with certain characteristics rights and expectations held by previously married individuals Anne Martin Matthews

Handbook of the Sociology of Gender Janet Saltzman Chafetz, 2006-11-22 During the past three decades feminist scholars have successfully demonstrated the ubiquity and omnirelevance of gender as a sociocultural construction in virtually all human collectivities past and present Intrapsychic interactional and collective social processes are gendered as are micro meso and macro social structures Gender shapes and is shaped in all arenas of social life from the most mundane practices of everyday life to those of the most powerful corporate actors Contemporary understandings of gender emanate from a large community of primarily feminist scholars that spans the gamut of learned disciplines and also includes non academic activist thinkers However while incorporating some cross disciplinary material this volume focuses specifically on sociological theories and research concerning gender which are discussed across the full array of social processes structures and institutions As editor I have explicitly tried to shape the contributions to this volume along several lines that reflect my long standing views about sociology in general and gender sociology in particular First I asked authors to include cross national and historical material as much as possible This request reflects my belief that understanding and evaluating the here and now and working realistically for a better future can only be accomplished from a comparative perspective Too often American sociology has been both tempero and ethnocentric Second I have asked authors to be sensitive to within gender differences along class racial ethnic sexual preference and age cohort lines *Routledge Handbook of Cultural Gerontology* Julia Twigg, Wendy Martin, 2026-01-30 The second edition of this landmark handbook provides an authoritative overview of the emergence and development of cultural gerontology It reveals the vibrancy and diversity of theory methodology and research methods and reflects on changes in the field since the first edition and examines future directions Over the last two decades cultural gerontology has emerged as one of the most lively and insightful areas of academic analysis Whilst the Cultural Turn may have come quite late to ageing studies cultural perspectives have increasingly influenced the field Drawing from work across the humanities and social sciences it has changed the ways in which we study later years challenging old stereotypes bringing to bear new theories new

methodologies as well as new forms of political and intellectual engagement The aim of this second edition of the handbook has been to bring together both new and original authors to provide a critical analysis of key perspectives and debates and consider avenues for future agendas within their own fields of cultural gerontology There are new topics and themes new theoretical and methodological perspectives as well as chapters that have been extensively revised and updated The handbook offers lively interdisciplinary and vibrant accounts of later life around five interconnected areas the politics and theorising of ageing materiality and embodiment cultures of care identities relationships and consumption and arts and technologies The Routledge Handbook of Cultural Gerontology captures the field's past present and future in widening the social gerontological imaginary and brings new and creative methodologies to bear on the understanding of all dimensions of the lives of people in mid to later life It is essential reading for students and scholars concerned with ageing and gerontology

Intimacy in Later Life Kate M. Davidson, Kate Davidson, Graham Fennell, To love and be loved is arguably one of the most powerful and fundamental driving forces sustaining self esteem and self identity throughout the lifecourse Need for reciprocal loving does not change as we grow older despite failures of health loss of a partner late divorce and alterations of personality due to the aging process However most studies of human sexuality have ignored the problems and developing patterns of older adults entering into new partnerships To fill this gap Intimacy in Later Life brings together a wide range of distinguished international scholars to address this neglected research area This volume explores how older people today think and behave in relation to partner change Contributors consider the choices and constraints that influence decisions about new romantic relationships after divorce or the death of a spouse along with how these differ with respect to age gender and culture The authors discuss the considerable social variety to be found between permissive and morally conservative societies and cultural milieux as well as how standards of sexual behavior have changed over time Contributions include Kate Davidson and Graham Fennell New Intimate Relationships in Later Life Sofie Ghaanfareeon Karlsson and Klas Borell Intimacy and Autonomy Gender and Ageing Living Apart Together Deborah Carr and Rebecca Ut Late Life Widowhood in the United States New Directions in Research and Theory Nan Stevens Re Engaging New Partnerships in Late Life Widowhood Kate Davidson Gender Differences in New Partnership Choices and Constraints for Older Widows and Widowers Jenny De Jong Gierveld The Dilemma of Repartnering Considerations of Older Men and Women Entering New Intimate Relationships in Later Life Deborah K Van Den Hoonaard Attitudes of Older Widows and Widowers in New Brunswick Canada Towards New Partnerships Aldine J Moore and Dorothy C Stratton The Current Woman in an Older Widower's Life and Kalyani K Mehta Perceptions of Remarriage by Widowed People in Singapore Kate Davidson is lecturer in the Department of Sociology University of Surrey UK and is co director of the Centre for Research on Ageing and Gender Graham Fennell is professor of sociology and social policy in the School of Business and Social Sciences Roehampton University of Surrey UK and European editor of Ageing International

The Oxford Encyclopedia of Women in World History Bonnie G. Smith, 2008

The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work. Although there has been extensive research on women in history by region, no text or reference work has comprehensively covered the role women have played throughout world history. The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe. Historians have investigated women's daily lives in virtually every region and have researched the leadership roles women have filled across time and region. They have found and demonstrated that there is virtually no historical, social, or demographic change in which women have not been involved and by which their lives have not been affected. The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical, social, and demographic changes. The Encyclopedia contains over 1,250 signed articles arranged in an A-Z format for ease of use. The entries cover six main areas: biographies, geography, and history; comparative culture and society; adoption; abortion; performing arts; organizations and movements such as the Egyptian Uprising and the Paris Commune; women and gender studies; and topics in world history that include slave trade, globalization, and disease. With its rich and insightful entries by leading scholars and experts, this reference work is sure to be a valued go-to resource for scholars, college and high school students, and general readers alike.

Votes For Women Sandra Holton, Dr. June Purvis, June Purvis, 2002-01-04. *Votes for Women* provides an innovative re-examination of the suffrage movement, presenting new perspectives which challenge the existing literature on this subject. This fascinating book charts the history of the movement in Britain from the nineteenth century to the postwar period, assessing important figures such as Emmeline Pankhurst and the militant wing Millicent Garrett Fawcett, leader of the constitutional wing Jennie Baines, and her link with the international suffrage movements. *Continuing Bonds* Dennis Klass, Phyllis R. Silverman, Steven L. Nickman, 1996. Twenty-nine collected essays represent a critical history of Shakespeare's play as text and as theater, beginning with Samuel Johnson in 1765 and ending with a review of the Royal Shakespeare Company production in 1991. The criticism centers on three aspects of the play: the love/friendship debate. *Macmillan Encyclopedia of Death and Dying* Robert Kastenbaum, 2003. Comprehensive exploration of the place of death in contemporary life. Coverage of topics is broad and multi-disciplinary.

Families Making Sense of Death Janice Winchester Nadeau, 1998. Through interviews and analysis, Janice Winchester Nadeau takes a look at the dynamics at work in families in which a member has died. She shares stories which show how families gradually come to terms with their grief and make sense of the death.

The Family Dynamic Margaret Ward, 2001. **Problem Solving in Families** Samuel Vuchinich, 1999. This well-written book skillfully introduces the readers to the history of family problem solving. The range and quality of content in the book is vast and comprehensive. Strength lies within the detailed review of the literature. Readers seeking a wealth of information in a single volume may find this text a useful educational and research tool. Given the book's

readability it is recommended for upper level seminars It would be appropriate as a supplemental or required graduate level text in courses from multiple disciplines that deal with family problems The text is thought provoking and it may be a useful resource for researchers students educators and practitioners working with families Journal of Marriage and the Family This exploration of problem solving is useful to a variety of audiences who work with and conduct research related to families It offers practical applications of family problem solving as well as recent advances in and future considerations of research this field America s Family Support Magazine Family problems can range from mild conflicts to pathological issues In recent years it has become apparent that an understanding of family conflict is impossible without more knowledge about a fundamental characteristic of families family problem solving The various methods and tools both effective and ineffective that families use to solve their problems is an ongoing subject of research and clinical work that involves many disciplines including clinical psychology sociology family therapy developmental psychology communications and social psychology These vastly different perspectives and approaches emerging from this research have resulted in a diverse body of knowledge that has yet to be integrated and synthesized In Family Problem Solving author Samuel Vuchinich pulls this research together in one comprehensive volume that is written in an accessible and engaging style Elucidating the core principles that have developed from these various fields Family Problem Solving explores family conflicts the nature of family problems problems across the life cycle and social constructions This volume also includes applications of family problem solving as well as recent advances in and future considerations of this field This book will provide a useful resource for professionals and students in family studies developmental psychology sociology of the family and family psychology
