Platonism in early modern natural philosophy:

The case of Leibniz and Conway

Christina Mercer

Platonism played a much more significant role in the development of the new natural philosophy in the seventeenth century than has generally been understood. While historians acknowledge Platonist leanings in the thought of figures ranging from Descartes and Berkeley to Schopenhauer and Hegel, the precise relation of these thinkers to that ancient tradition has not been analyzed in any detail.¹ And while the relation between the ‘mechanization of the world picture’ and Platonism has been noted,² the exact role that Platonist assumptions about mind, soul, and God played in the development of the new account of nature remains inadequately explored. There is an enormous amount of scholarly work yet to be done to excavate the Platonist foundations of early modern thought.³

This paper displays the crucial role that some Platonist doctrines played in the natural philosophy of two seventeenth-century philosophers: Gottfried Wilhelm Leibniz (1646–1716) and Anne Finch Conway (1631–1679). The Platonism of Leibniz and Conway reveals a good deal both about the precise use of such doctrines in grounding the new natural philosophy and the motivations behind doing so.

To begin to understand the relevance of Platonist metaphysical assumptions in the development of the new natural philosophy, there needs to be a good deal of

¹ For important exceptions, see Merrin (1999) and many of the papers in Hedley and Hanson (2008), especially Van Ruler (2008).

² See classic treatments of the period such as Middleton (1963), chapters 4–5, esp. 55–7; Dighe-Davis, (1964) *passim*; and esp. Best (1954). It is noteworthy that such historians never speak of Platonism and the role of his thought in the development of the views that interest them, though they often emphasize the importance of Pythagoreanism. See, for example, Koyré (1957), esp. 30 and 59.

³ Some recent work has begun to explore the Platonist roots of a number of principles of the early modern period. See, for example, O’Neill (1993); Jones (2006), esp. Part III; Antognazza (2009), *passim*. For a grand study of Platonism and modern thought, see Schmitt (2003).
