Catanach Jr., 2008-06-27 Explains how faculty members can improve their teaching methods or how accounting units can improve their curricula programs **Developing New Products and Services** Lawrence Sanders, 2011-10-14 This book will focus on the up front activities required for product and service differentiation the learning methodologies that contribute to arriving at that differentiation and the role that technology plays in implementing the process. The book will show how technology factors into such entrepreneurial activities as engaging in business planning and utilizing creativity and innovation and how creative innovation in turn is achieved and enhanced through an understanding of two different modes of learning learning about and learning by doing.
