

Case Study No./TITLE	Case Study No: Progress in the Struggle for More Meaningful Development: Brazil
Chap. No./Title	Introducing Economic Development : A Global Perspective

<p><b>• INTRODUCTION</b></p> <ul style="list-style-type: none"> <li>• Introduction/Brief background of the case <ul style="list-style-type: none"> <li>○ Provide information about the case</li> </ul> </li> </ul> <p>Brazil is considered to be a high middle-income country with a high level of poverty. The country's revenue and growth were idle. At some point, Brazil has been held up as an example of a country that has undergone "growth without development" primarily due to an unequal place of development even the GDP of the country is rising but social progress seems poor. Its income and growth have been static for a long period of time, raising the country's instability, resulting in a rise in commodities prices. Brazil is one of four prominent countries known as the "BRICs" (Brazil, Russia, India, and China). High and rising taxes slow the growth of employment of formal-sector where the Brazil labor force works in informal-sector to avoid taxes. The taxes must be fairly divided, but by their revenue they were unequally distributed. This uneven spending caused under-five starvation and child labour. And this suppressive condition has caused a higher poverty rate in Brazil and a percentage has also seen some poverty.</p> <p>This also impacted poor farmers in the case of land reform, who could not acquire land suitable for cultivation because only powerful farmers own the best land. Another major impact leading to their stagnant development is the environmental degradation of such discrimination between blacks and whites, where blacks are deprived from the rights they deserved.</p>	
<p><b>• EVALUATION OF THE CASE</b></p> <ul style="list-style-type: none"> <li>• Analyze the economic growth and economic development history of the country. Provide figures on the following: <ul style="list-style-type: none"> <li>○ Economic Growth <ul style="list-style-type: none"> <li>• Economic Growth Indicators (GDP/GNP)</li> </ul> </li> <li>○ Economic Development <ul style="list-style-type: none"> <li>• Economic Development Indicators <ul style="list-style-type: none"> <li>- Income and Growth (Per capita income)</li> </ul> </li> </ul> </li> </ul> </li> </ul> <p>In 2007, Brazil Per capita income was \$ 3,888. Using purchasing power parity, the average income was still only \$ 1,274, about one-fifth of that of the richest states but almost ten times that of India. (World Bank Data)</p>
