Curriculum Based Assessment A Primer:

CURRICULUM-BASED ASSESSMENT Charles H. Hargis, 2013-03-01 Thoroughly updated and expanded this fourth edition focuses on the use of curriculum based assessment to ensure learning disabled and low achieving students adequate educational opportunities The text explores ways of providing detail and explanation in the context of current and emerging issues in educational assessment and standards The point that educational success is more than just avoiding failure is emphasized and throughout the book precise definitions and examples of various instructional situations are presented Shifting emphasis from identifying deficit areas to finding and inventorying skills and abilities CBA requires an intimate relationship between teaching and testing To help the instructor achieve this balance the author offers examples and methods of implementation through reading and arithmetic activities and discusses at length the issues involved in test validity and grading The primary objective of curriculum based assessment is the success of students and much of the book is devoted to its two primary steps finding the level on the curriculum where the student can succeed and then incorporating assessment practices in the daily teaching activities so that success is an ongoing affair To further update this edition two additional new chapters have been added The Paradox of Setting Standards by Grade Level and Assessing Writing The book's simple format readability and detailed descriptions of instructional methodology make it a significant resource Designed to assist instructors curriculum persons special educators and administrators the book will also be helpful to researchers counselors social workers and other professionals in human service organizations

Clinician's Handbook of Child Behavioral Assessment Michel Hersen, 2011-04-28 Given the vast amount of research related to behavioral assessment it is difficult for clinicians to keep abreast of new developments In recent years there have been advances in assessment case conceptualization treatment planning treatment strategies for specific disorders and considerations of new ethical and legal issues Keeping track of advances requires monitoring diverse resources limited to specific disorders many of which give short shrift to child assessment overlooking developmental considerations Much of the existing literature is either theoretical research in focus or clinical in nature Nowhere are the various aspects of child behavioral assessment placed in a comprehensive research clinical context nor is there much integration as to conceptualization and treatment planning The Clinician's Handbook of Child Behavioral Assessment was created to fill this gap summarizing critical information for child behavioral assessment in a single source The Clinician's Handbook of Child Behavioral Assessment provides a single source for understanding new developments in this field cutting across strategies techniques and disorders Assessment strategies are presented in context with the research behind those strategies along with discussions of clinical utility and how assessment and conceptualization fit in with treatment planning The volume is organized in three sections beginning with general issues followed by evaluations of specific disorders and problems and closing with special issues To ensure cross chapter consistency in the coverage of disorders these chapters are formatted to contain an introduction assessment

strategies research basis clinical utility conceptualization and treatment planning a case study and summary Special issue coverage includes child abuse assessment classroom assessment behavioral neuropsychology academic skills problems and ethical legal issues Suitable for beginning and established clinicians in practice this handbook will provide a ready reference toward effective child behavioral assessment

Curriculum-based Measurement Jack J. Kramer, 1993 GRADES AND GRADING PRACTICES Charles H. Hargis, 2003-01-01 This second edition of Grades and Grading Practices not only contains updated and refreshed material on the problems caused by our current grading system it also provides two additional chapters dealing with the present issues on assessment standards and social promotion Designed to assist teachers instructors curriculum persons and administrators who desire to implement cooperative thinking and problem solving skills into the existing grading practices this book calls attention to the obstacles that have been created While poor grades may nudge some students to better performance there are other students low achievers who are demoralized by poor grades bringing about a variety of behavioral difficulties that have a negative effect on future incentive to learn Good grades are motivating but the only students who are motivated are those already getting good grades Success is fundamental to achievement Lack of success means lack of achievement The failing grades are indicative of our failure to provide success for most students who receive them This book explores the problems caused by grades and offers suggestions to improve the quality of American education

Teaching Low Achieving and Disadvantaged Students Charles H. Hargis, 2006 This new edition updates and expands the previous volume and continues to reflect the concepts and the reasons behind learning and behavior problems of low achieving and disadvantaged students Through the chapters the author describes instructional levels and independent levels emphasizing that success is produced by finding the place on the curriculum for each student at these levels Details and reactions in light of events and experiences of the intervening years is examined outlining assessment procedures to separate real disabilities from school created ones and then describing the educational treatment of each Other topics include the grading system student centered curriculum an alternate perspective on testing and a changed role for the teacher Instructional delivery systems centered on curriculum based assessment and cooperative noncompetitive learning methods are also proposed Designed for classroom teachers as well as administrators the text is the result from the author's role in working with children who are casualties of the educational system as well as his progress in helping to develop a successful alternative public high school
