Ordnance Survey,1996 **Cardigan & Mynydd Preseli** ,2016-02-24 *Landranger Map 0145* Ordnance
Survey,1996-09-01 **Places of Special Virtue** Alasdair Whittle,2017-02-20 This volume explores the landscape settings of
megalithic chambered monuments in Wales Set against a broader theoretical discussion on the significance of the landscape
the authors consider the role of visual landscapes in prehistory meanings attached to the landscape and the values and
beliefs invested in it Wales is rich in Neolithic monuments but the general absence of certain classic monumental forms
found in the rest of Britain and Ireland such as causewayed enclosures henges and cursus monuments seems to have
marginalized the Welsh record from many wider discussions on the Neolithic Instead of seeing Wales as an area which lacks
many of these classic components Cummings and Whittle argue that Wales has its own unique and individual Neolithic which
is simply different from the Neolithic found further to the east It is suggested that this difference may relate to an essentially
mobile existence with strong links back to the Mesolithic period The authors present three detailed case studies examining
the settings of sites in southwest northwest and southeast Wales They outline the history of research for each region
including the previous classification of the monuments and any excavations and describe the specific landscape settings of
the monuments They assess the significance of a variety of landscape features which would have been visible from the
monuments in particular emphasizing the mythological and symbolic significance of the sea rivers and mountains An
illustrated inventory of sites completes the volume Cassini Hm, Pop-145: Cardigan and Mynydd Preseli 145 Cassini
