Care of Henry Anne Fine,1998      Care of Henry Anne Fine,Paul (ill.) Howard,2005      *The Last Legacy of Henry Care* Henry Care,1688      **Borders of Care** Beatrix Hoffman,2025-02-11 Probes the relationship between the immigration and health care systems in the United States For the roughly ten million undocumented immigrants living in the United States federal health care coverage is out of reach Barred from Medicare Medicaid and the Affordable Care Act most rely on hospital emergency rooms when they get sick or clinics that don t inquire about immigration status Further obstacles to health care including discrimination and the fear of deportation mean that immigrants undocumented or not seek and receive less medical attention than any other population in the country Yet immigrants haven t always been ostracized from health care in the United States providers and activists have for over a century worked to make medical services available to newcomers and migrants including at times the undocumented Drawing together stories from diverse communities from the mid nineteenth century to the present *Borders of Care* examines how health care in the United States has both included and excluded immigrants Beatrix Hoffman analyzes both the health and immigration systems adding to our understanding of why these structures and the policies that support them have resisted reform Moreover she shows that immigrants often scapegoated as burdens on the health care system have strengthened it through their responses to systemic exclusion By creating hospitals and clinics serving as practitioners fighting for safer workplaces filing lawsuits organizing and protesting immigrants and migrants have improved medical access for everybody and advanced the idea of health care as a universal right As accessible as it is authoritative Hoffman s survey could not be more timely      **Health Care Off the Books** Danielle T. Raudenbush,2020-02-11 Millions of low income African Americans in the United States lack access to health care How do they treat their health care problems In *Health Care Off the Books* Danielle T Raudenbush provides an answer that challenges public perceptions and prior scholarly work Informed by three and a half years of fieldwork in a public housing development Raudenbush shows how residents who face obstacles to health care gain access to pharmaceutical drugs medical equipment physician reference manuals and insurance cards by mobilizing social networks that include not only their neighbors but also local physicians However membership in these social networks is not universal and some residents are forced to turn to a robust street market to obtain medicine For others health problems simply go untreated Raudenbush reconceptualizes U S health care as a formal informal hybrid system and explains why many residents who do have access to health services also turn to informal strategies to treat their health problems While the practices described in the book may at times be beneficial to people s health they also have the potential to do serious harm By understanding this hybrid system we can evaluate its effects and gain new insight into the sources of social and racial disparities in health outcomes      **The National Real Estate Journal** ,1924      **[The New Shakspere Society / 7 ] ; The New Shakspere Society.
