Caribbean Cultural Identities:

Caribbean Cultural Identities Glyne A. Griffith, 2001 The eight essays in this edition analyze Caribbean culture less as commodity to be consumed than as ontological device and discursive tool weapon **BOOK JACKET**

Caribbean Cultural Identity Rex M. Nettleford, 2003 Up until the 1970 the Jamaican establishment considered culture to be European Visiting scholars and artists such as St Lucia's Derek Walcott slowly convinced political and business leaders that Caribbean islands have their own culture beyond the colonial influence leading to the establishment of institutions such as schools galleries and theaters to celebrate the island's own multicultural heritage This is a revised edition of Nettleford's classic study on cultural development in Caribbean society

Caribbean Cultural Identity Rex M. Nettleford, 1978-01-01

Global Culture, Island Identity Karen Fog Olwig, 2005-10-05 Looking at the development of cultural identity in the global context this text uses the approach of historical anthropology It examines the way in which the West Indian Community of Nevis has since the 1600s incorporated both African and European cultural elements into the framework of social life to create an Afro Caribbean culture that was distinctive and yet geographically unbounded a global culture The book takes as its point of departure the processes of cultural interaction and reflectivity It argues that the study of cultural continuity should be guided by the notion of cultural complexity involving the continuous constitution development and assertion of culture It emphasizes the interplay between local and global cultures and examines the importance of cultural display for peoples who have experienced the process of socioeconomic marginalization in the Western world

The Changing Face of Afro-Caribbean Cultural Identity Mamadou Badiane, 2010-01-01 The Changing Face of Afro Caribbean Cultural Identity Negrismo and Negritude looks primarily at Negrismo and Negritude through the eyes of the poetry of Nicolas Guill n Manuel del Cabral and Pal's Matos as well as L opold Senghor L on Gontran Damas and Aim C saire The book shows Caribbean cultural identity as a slippery and fluctuating zone

Nation Dance Patrick Taylor, 2001-07-18 In these essays the poetic vitality of the practitioner's voice meets the attentive commitment of the postcolonial scholar in a dance of nations across the waters

Migration and Caribbean Cultural Identity University of Florida. Center for Latin American Studies, 1982

Caribbean Autobiography Sandra Pouchet Paquet, 2002-07-22 Despite the range and abundance of autobiographical writing from the Anglophone Caribbean this book is the first to explore this literature fully It covers works from the colonial era up to present day AIDS memoirs and assesses the links between more familiar works by George Lamming C L R James Derek Walcott V S Naipaul and Jamaica Kincaid and less frequently cited works by the Hart sisters Mary Prince Mary Seacole Claude McKay Yseult Bridges Jean Rhys Anna Mahase and Kamau Brathwaite Sandra Pouchet Paquet charts the intersection of multiple contradictory viewpoints of the colonial and postcolonial Caribbean differing concepts of community and levels of social integration and a persistent pattern of both resistance and accommodation within island states that were largely shaped by British colonial practice from the mid seventeenth through the mid twentieth century The texts examined here

reflect the entire range of autobiographical practice including the slave narrative and testimonial written and oral narratives spiritual autobiographies fiction serial autobiography verse diaries and journals elegy and parody

C.L.R. James and Formulations of Caribbean Cultural Identity Nicole Roberta King, 1994

Exploring Cultural Identities in Jean Rhys' Fiction Cristina-Georgiana Voicu, 2014-10-02 Using a theoretical approach and a critical summary combining the perspectives in the postcolonial theory psychoanalysis and narratology with the tools of hermeneutics and deconstruction this book argues that Jean Rhys's work can be subsumed under a poetics of cultural identity and hybridity It also demonstrates the validity of the concept of hybridization as the expression of identity formation the cultural boundaries variability the opposition self otherness authenticity fiction trans textuality and the relevance of an integrated approach to multiple cultural identities as an encountering and negotiation space between writer reader and work The complexity of ontological and epistemological representation involves an interdisciplinary approach that blends a literary interpretive approach to social anthropological cultural and historical perspectives The book concludes that in the author's fictional universe cultural identity is represented as a general human experience that transcends the specific conditionalities of geographical contexts history and culture The construction of identity by Jean Rhys is represented by the dichotomy of marginal identity and the identification with a human ideal designed either by the hegemonic discourse or metropolitan culture or by the dominant ideology The identification with a pattern of cultural authenticity of racial ethnic or national purism is presented as a purely destructive cultural projection leading to the creation of a static universe in opposition to the diversity of human feelings and aspirations Jean Rhys's fictional discourse lies between the anxiety of authorship and the anxiety of influence and shows the postcolonial era of uprooting and migration in which the national ownership diluted the image of a home ambiguous located at the boundary between a myth of origins and a myth of becoming The relationship between the individual and socio cultural space is thus shaped in a dual hybrid position

Caribbean Dynamics: Re-Configuring Caribbean Culture Beatrice Boufof-Bastick, Savrina Chinien, 2015-09-25 Caribbean cultural identity is dynamic and complex but also continuously in flux In the 21st century the Caribbean is both a site of cultural convergence and divergence Though influenced by common histories of slavery indentureship and European colonization and postcolonialism the multi ethnic diaspora and new globalized dispensation has resulted in an ever changing yet unique Caribbean culture In Caribbean Dynamics Re configuring Caribbean Culture the authors present the multi vocality of Caribbean culture with an integrated overview of the social political and cultural themes that dominate the Caribbean landscape Francophone Anglophone Dutch and Spanish creolization in the Caribbean is examined to reveal reconfigured national and regional identities Divided into 3 main sections the first The Dynamics of Carib being looks at how literature has helped to shape Caribbean identities The second section Performing Arts Mapping out the Caribscape presents the diversity of Caribbean culture while the third section Transcending Adversity to Foster a Caribbean Culturalist Ethos examines how Caribbean cultural identity is articulated and translated in

social and government policies This examination of the Caribbean being performing and transcending steps outside of traditional interrogations of identity and provides a timely panoramic view of emergent issues in a globalized Caribbean region Caribbean Dynamics investigates both the collectiveness and singularity of the Caribbean and reveals the mosaic that is Caribbean cultural identity hewn from the past honed by trans border diasporic influences and woven into the tapestry of a new globalized cultural landscape

Religion, Diaspora and Cultural Identity J.W. Pulis,2014-01-02 Although the religions of the Caribbean have been a subject of popular media there have been few ethnographic publications This text is a much needed and long overdue addition to Caribbean studies and the exploration of ideas beliefs and religious practices of Caribbean folk in diaspora and at home Drawing upon ethnographic and historical research in a variety of contexts and settings the contributors to this volume explore the relationship between religious and social life Whether practiced at home or abroad the contributors contend that the religions of Caribbean folk are dynamic and creative endeavors that have mediated the ongoing and open ended relation between local and global historical and contemporary change

Global Culture, Island Identity Karen Fog Olwig,1995 *Caribbean Narratives of Belonging* Jean Besson,Karen Fog Olwig,2005 Contemporary Caribbean society emerged within a complex framework of extensive and

exploitive interconnections on a global scale and unequal inter cultural social relations at the local level This book explores the communities of belonging that Caribbean people have created and sustained as they have carved out a life for themselves within this context of social economic and cultural complexity Caribbean narratives offer a fertile ground in which to explore notions and practices of belonging because they are rich in empirical data on the lives experienced by various Caribbean people At the same time they point to the shared socio cultural orders that give meaning and purpose to these lives By analyzing narratives as accounts of lived lives as a way of structuring the past and as modes of communication and performance the chapters in this volume develop important insights into Caribbean culture and bring fresh perspectives to cross cultural research on narratives and their articulation with fields of social relations and sites of cultural identity The sixteen chapters by anthropologists geographers historians and sociologists are based on in depth research from throughout the Caribbean region and among Caribbean migrants and their descendents in Europe and North America

"This Shipwreck of Fragments" Li-Chun Hsiao, 2009-10-02 In the light of and in response to the popular perception of the Caribbean as an epitome of cultural hybridity and improvisation this book seeks to further examine Caribbean cultural identities along the lines of race class nationalism and history Drawing on a variety of genres of literature and popular music the present volume includes not only essays that stress the shaping and reshaping of Afro Caribbean cultural identities and the significance of hybridization but also those that think against the grain and pursue questions which have not received enough critical attention This latter task can be seen in the attempt to probe the phenomenon that the Caribbean s image as a tropical getaway in metropolitan popular imaginations tends to eclipse its troubled pasts traumatic memories and current and recurrent problems which elude the rhetoric of cultural hybridity presupposing instead a certain non conflictual diversity or racial equality in the relatively innocuous realm of culture Although nuanced among themselves on certain issues the individual chapters together highlight a body of work which is distinct from the bulk of Anglo American academic productions on the Caribbean as the majority of the textual and cultural materials treated here come from either the Hispanic or Francophone Caribbean

Identity, Ethnicity and Culture in the Caribbean Ralph R. Premdas, 1999 This volume pulls together an interesting collection of essays on culture ethnicity and identity Some contributors have focused on calypso popular music and carnival as sites of inter ethnic rivalry in the context of forging a national identity in a global setting Others have examined the role of competitive elections jobs in the public service schools mixed marriages and dancing as arenas of culture conflict and power quest

Book cover **Globalization, Communications, and Caribbean Identity** Hopeton S. Dunn, 1995 This volume explores the economic social political and cultural implications of the new technologies especially as they relate to the Caribbean area The editor uses an interdisciplinary approach to reflect the extensive reach of the new technologies into all sectors of the global economy and society
