This 'Answers' document provides suggestions for some of the possible answers that might be given for the questions asked in the workbook. They are not exhaustive and other answers may be acceptable, but they are intended as a guide to give teachers and students feedback.

Exam-style question answers

The answers given for exam-style questions of an explanatory or evaluative kind set out what is called 'indicative content guidance'. Just showing the examiner you are familiar with some or most of the content is not enough. You need to demonstrate that you understand it and are willing and able to use it in a way that directly addresses the question. The indicative content shown for each question is not exhaustive. Questions may be approached in a number of different ways. The choice of approach is yours. Just make sure your approach answers the question.

Level 3: A detailed and coherent comparison is given, which demonstrates a broad knowledge and understanding of the key scientific ideas. The response makes logical links between the points raised and uses sufficient examples to support these links. [5–6]

Level 2: A description is given which demonstrates a reasonable knowledge and understanding of the key scientific ideas. Comparisons are made but may not be fully articulated and/or precise. [3–4]

Level 1: Simple statements are made which demonstrate a basic knowledge of some of the relevant ideas. The response may fail to make comparisons between the points raised. [1–2]
