*Echoes of Perennial Wisdom* Frithjof Schuon, 1992-01-01 A collection of short jewel-like excerpts from Schuon's major works that evokes the essence of spiritual truths. *Echoes of Perennial Wisdom* Frithjof Schuon, 2012-02-16 This revised collection of brief and inspiring passages on the spiritual life was selected from Schuon's unpublished letters and papers as well as from his books. They discuss our relationship with God, the importance of prayer, the meaning of virtue, the significance of beauty in our lives, as well as other spiritual themes. This edition has been retranslated and expanded to include 19 additional pages of moving excerpts.

*Voices and Echoes* Jo-Anne Elder, Colin O'Connell, 2010-10-30 Every time we raise our voices we hear echoes. Jo-Anne Elder, from the Foreword. Through short stories, journal entries, and poetry, the women in *Voices and Echoes* explore the changing landscape of their spiritual lives. Experienced writers such as Lorna Crozier, Di Brandt, and Ann Copeland, as well as strong new voices, appear to speak to each other as they draw from a wealth of personal resources to find a way to face life's questions and discover meaning in their lives. There is something familiar about these stories and poems; they echo those we've heard before and those we've half-forgotten. Whether they search for a voice in a world where men monopolize or journey into painful memories to free the self from the past, they do not despair; they do not end. Individual entries become the whole story, an unending story of rebirth and reaffirmation. The book begins with an illuminating foreword that introduces readers to the cultural and philosophical background of many of the stories and concludes with the reflections of scholars, writers, and artists that are intended to provoke further discussion. *Rethinking*

*Ibn 'Arabi* Gregory A. Lipton, 2018-04-02 The thirteenth-century mystic Ibn Arabi was the foremost Sufi theorist of the premodern era. For more than a century, Western scholars and esotericists have heralded his universalism, arguing that he saw all contemporaneous religions as equally valid. In *Rethinking Ibn Arabi*, Gregory Lipton calls this image into question and throws into relief how Ibn Arabi's discourse is inseparably intertwined with the absolutist vision of his own religious milieu: that is, the triumphant claim that Islam fulfilled, superseded, and therefore abrogated all previous revealed religions. Lipton juxtaposes Ibn Arabi's absolutist conception with the later reception of his ideas, exploring how they have been read, appropriated, and universalized within the reigning interpretive field of Perennial Philosophy in the study of Sufism. The contours that surface through this comparative analysis trace the discursive practices that inform Ibn Arabi's Western reception back to the eighteenth and nineteenth-century study of authentic religion, where European ethno-racial superiority was wielded against the Semitic Other, both Jewish and Muslim. Lipton argues that supersessionist models of exclusivism are

buried under contemporary Western constructions of religious authenticity in ways that ironically mirror Ibn Arabi's medieval absolutism

*Traditionalism* Kenneth Oldmeadow, Harry Oldmeadow, 2000 This book explains why no one engaged in religious and cultural studies can afford to disregard the urgent message of the traditionalists who have reminded a forgetful world in a manner which can be ignored but not refuted of those principles which everywhere and always remain true It also demonstrates why any reassessment of contemporary values now increasingly called into question must take into account the profound traditionalist critique of the modern Western worldview BOOK JACKET

Laibelman, 2000-10-25 The Other Perennial Philosophy A Metaphysical Dialectic seeks to synthesize the many fields within science philosophy and religion to achieve the most comprehensive picture ever constructed to incorporate universally held beliefs about God man and the universe This book attempts to accomplish several interrelated purposes to describe the Perennial Philosophy in its depth to analyze the critical elements contained within such a body of thought to bring to light the vast literature of views which are oppositional at least on some level to those contained in the Perennial Philosophy to synthesize these seemingly discordant thoughts into a new vision of the nature of reality to dissect the implications of this new model and lastly and perhaps most importantly to demonstrate that intellect has no innate constraints This book rigorously explores the connections to be made by weaving together the threads of philosophy religious theology mysticism mythology mathematics physics and biochemistry In this study is both a critique and an homage to Perennial Philosophy In evoking a new vision of reality which is at the same time a modernized version of an old image The Other Perennial Philosophy A Metaphysical Dialectic seeks to entice readers to rethink their own views on a subject of crucial importance to all This book will appeal to anyone interested in philosophy and religion
