## **Cardiff Dead:**

*Reinventing a Small, Worldly City* Ana Gonçalves, 2016-11-10 Focusing on Cardiff the capital city of Wales in the UK this book reflects on a contemporary small European city its development characteristics and present struggles Following a century in which it was dubbed the world's coaltropolis the decline in demand for coal meant that Cardiff endured an acute process of de industrialisation In seeking to address this and the related high levels of unemployment it has experienced a process of cultural and social reinvention since the 1980s and more significantly after Wales turned into a devolved nation in the late 1990s Cardiff's development from a small port into a capital city is examined and special attention is paid to the city's cultural and social transformation in recent decades that has relied on the expansion of specific cultural clusters and tourism which have been decisive for the transformation of its cultural identity and in shaping the city's individual and collective memories and identities Cardiff epitomises a quintessential case of urban reinvention cultural regeneration and social transformation lying between two apparently contradictory paradigms the need to respond to global demands and the effort to maintain its cultural distinctiveness and Welsh roots Therefore it sets the scene for a wider reflection on small cities especially in the European setting and what generally characterises these cities their liveability cultural creativity and community empowerment as well as the fact that they facilitate mobility and social interaction These worldly cities the book contends present interesting opportunities and challenges at the urban economic social and cultural levels that rely on more human scale people based approaches to cities thus defying existing urban hierarchies and categorisations

**Sport, Events, Tourism and Regeneration** Nicholas Wise, John Harris, 2017-02-17 Investments in sport events and tourism in cities and wider regions are part of nascent regeneration strategies linked to transitioning economic bases and place images While it is important to consider physical regeneration there is a range of subsequent benefits and opportunities brought about through regeneration that considers social impacts communities and how investments and developments influence how people interact in transformed spaces This book brings together a collection focusing on the diverse range of approaches and perspectives of regeneration Twelve chapters outline and bring together critical perspectives of regeneration from scholars in different parts of the world This collection critically assesses some of the key factors impacting upon regeneration initiatives in relation to sport events and tourism By doing so this book assesses if new opportunities have arisen from developments increasing the demands and needs of locals and tourists or if transformations result in exclusion thus challenging who regeneration is for This book will be valuable reading for students and academics interested in tourism studies events planning sport and leisure studies or development studies as well as the wider social sciences

**Page and Place: Ongoing Compositions of Plot** Jon Anderson, 2014-10-15 If people are geographical beings what can fiction tell us about this truth This book explores how literature can help us understand the nature of the relations between people and place how humans create connections between their identities and their geographies and how these can be threatened and lost Literature is an important if unusual way to explore these relations At once centred in imagination and ideas fiction is also indelibly connected to as well as influenced by the geographies in which it is set As this book argues the relationship between fiction and location is so important that it is often difficult to know which is imagined and which is real Exploring the relations between people and place through fiction writing set in Wales Page and Place garners poetic insight into how places are written into our stories and how these stories take and make the places around us The book introduces the notion of plot to describe the complex entanglement between fiction and geography and to help understand the role that places play in defining human identity
