*Echoes* John Sallis, 1990-09-22 In *Echoes* John Sallis mobilizes the figure of echo used by Heidegger to characterize originary thinking as the motif around which to organize a radical reading of Heidegger's most important texts *Echoes* John Sallis, 1990 Mobilizes the figure of echo used by Heidegger to characterize originary thinking as the motif around which to organize a radical reading of Heidegger's most important texts *The Path of Archaic Thinking* Kenneth Maly, 1995-01-01 This is the first anthology of commentary on Sallis that shows what is genuinely unique in his thought the transformative relation of reason and imagination in thinking after Heidegger *Crises in Continental Philosophy* Arleen B. Dallery, Charles E. Scott, 1990-10-02 This book punctuates the moments of crisis in continental thought from the foundational crisis of reason in Husserl's call for a rigorous science of phenomenology to the current crisis of postmodernism and its rejection of Husserl's metanarrative of history and rationality The mediating links between these moments is the centrality of the epochal history of Being the power of cultural and disciplinary practices and the dispersal of meaning in the post-Husserlian and post-subjective philosophies of Heidegger Foucault Derrida and others Included here are the thoughts of leading scholars who critically discuss Husserl's analysis of the crisis of Western thought and the importance of the concepts of world in Husserl's early writings The authors analyze the deprivileging of philosophy as social critique through the text of Husserl Habermas Foucault and recent feminist theory They examine the end of the epistemological and morally autonomous subject in continental thought Together these thoughts articulate multiple points or moments of crisis without cure or end **After Heidegger?** Gregory Fried, Richard Polt, 2017-11-08 This unique volume collects more than 30 new essays by prominent scholars on what remains philosophically provocative in Heidegger's thought His writings continue to invite analysis and application particularly in the light of his political affiliations they must also be critiqued Philosophy today takes place after Heidegger in that his views should not be accepted naively and there are new issues that he did not address but also in that we continue to think in the wake of important questions that he raised The contributors to this volume ask questions such as What does it mean to think after Heidegger What is valuable in his early work on finite existence and in his early and late phenomenology What is the root of his political errors Are there still elements in his thought that can yield helpful political insights Should we emulate his turn toward releasement Can he help us understand the postmodern condition Readers will find thought provoking echoes and points of contention among these engaging and lively essays **The Young Heidegger** John Van Buren, 1994-11-22 Part Three focuses on Heidegger's early Freiburg period sketching his project of demythologizing metaphysics and effecting the end of philosophy Part Four traces the young Heidegger's anarchic personalist formulations of his new postmetaphysical beginning **Heidegger and Sankara** Bosco Correya, 2003 **Heidegger's Political Thinking** James F. **Heidegger's Phenomenology of Perception** David Kleinberg-Levin,2021-01-06 In volume I Kleinberg Levin interprets five key words in Heidegger's project In this second volume he illuminates their significance for Heidegger's phenomenology of perception and his philosophy of history At stake is the possibility of a new experience and understanding of being Taking us beyond the metaphysical understanding of being Heidegger proposes to introduce a new key word *Seyn beyng* *Beyng* is the *Da sein* appropriating event in which a clearing occurs as an open dimension for the time space interplay of concealment and unconcealment an interplay within which beings are experienced in regard to the various modes and inflections of presence and absence that the grammar of temporalities articulates Concentrating on the appropriation of seeing and hearing as capacities and capabilities bearing promising potentialities that could be developed Kleinberg Levin examines seeing and hearing in the context of Heidegger's critique of the history of metaphysics wherein vision has served as paradigm for knowledge truth and reality He shows that in Heidegger's philosophy of history seeing and hearing are given a role in the transformation of the character of humanity redeeming their own inherent potential Perceptual experience has undergone accelerating processes of deformation and reification encouraging a disposition that makes it serve technological and technocratic imperatives but we might begin to redeem the promising potential in seeing and hearing turning their damaged and dehumanized character and their violence towards the creation of a new planetary existence what Heidegger imagines through the topology of the fourfold earth and sky mortals and the gods who embody our ideals In this project we are put in question by a responsibility that summons us in our seeing and hearing to the response abilities most befitting our historically shared sense of an achieved humanity
