Ingenuity Gap How Can We Solve The Problems Of The Future:

The Ingenuity Gap Thomas Homer-Dixon, 2001-05-15 Human beings have been smart enough to turn nature to their ends generate vast wealth for themselves and double their average life span But are they smart enough to solve the problems of the 21st century Thomas Homer Dixon In *The Ingenuity Gap* Thomas Homer Dixon global guru the Toronto Star asks is our world becoming too complex too fast paced to manage The challenges facing us converge intertwine and remain largely beyond our ken Most of suspect the experts don't really know what's going on that as a species we've released forces that are neither managed nor manageable We are fast approaching a time when we may no longer be able to control a world that increasingly exceeds our grasp This is the ingenuity gap the term coined by Thomas Homer Dixon the critical gap between our need for practical innovative ideas to solve complex problems and our actual supply of those ideas Through gripping narrative stories and incidents that exemplify his arguments he takes us on a world tour that begins with a heartstopping description of the tragic crash of United Airlines Flight 232 from Denver to Chicago and includes Las Vegas in its desert a wilderness beach in British Columbia and his solitary search for a little girl in Patna India He shows how in our complex world while poor countries are particularly vulnerable to ingenuity gaps our own rich countries are not immune and we are caught between a requirement for ingenuity and an increasingly uncertain supply When the gap widens political disintegration and violent upheaval can result reaching into our own economies and daily lives in subtle ways In compelling lucid prose he makes real the problems we face and suggests how we might overcome them

The Ingenuity Gap Thomas Homer-Dixon, 2010-01-29 As crises multiply ingenuity lags This prescient classic explains why societies falter when problems outpace solutions and offers a roadmap to close the gap before risks from climate shocks pandemics inequality and AI spiral beyond control First published at the turn of the millennium *The Ingenuity Gap* by Thomas Homer Dixon anticipated the turbulent world we now inhabit pandemics climate disasters political polarization disruptive runaway technologies and escalating global instability With remarkable foresight Homer Dixon warned that the complexity of our problems would accelerate faster than our collective ingenuity to solve them and that failure to close this gap would leave societies fragile and exposed A quarter century later his vision has proven prophetic Homer Dixon takes readers on a global tour of ingenuity under pressure from the desperate improvisation of pilots fighting to land United Airlines Flight 232 in Iowa to the water hungry expansion of Las Vegas to a harrowing search for a missing child in Patna and the collapse of Canada's cod fisheries Vivid and far reaching it is a sweeping portrait of what happens when societies are stretched beyond their capacity to adapt and an enlightening case for why ingenuity is humanity's most vital resource Celebrating over twenty five years in print *The Ingenuity Gap* remains both a visionary diagnosis of our age and a call to reimagine how we generate creativity resilience and leadership in uncertain times

Privatizing Peace: From Conflict to Security Allan Gerson, Nat Colletta, 2022-06-08 *Privatizing Peace From Conflict to Security* pinpoints the weaknesses in the numerous peacekeeping missions of recent

decades as well as the blind spots in the thinking that guided them Even more significantly they clearly demonstrate the ways in which well meaning stabilization and reconstruction programs fail to accommodate the economic and social imperatives of war torn societies But this visionary work is not merely an indictment of First World myopia in the face of Third World devastation The authors offer cogent well thought out recommendations firmly grounded in current reality with a powerful determination to avoid the repetition of past mistakes Published under the Transnational Publishers imprint

Feeding the Future Andrew Heintzman,Evan Solomon,2006 Outlines practical solutions to global food supply problems in the twenty first century suggesting relevant ways to address key issues related to food safety conservation global trade and more Original [The Ingenuity Gap](#) Thomas Homer-Dixon,2002-08-13 Despite all of society s advances our problems proliferate Wars abound environmental degradation accelerates economies topple overnight and pandemics such as AIDS and tuberculosis continue to spread The Internet and other media help to disseminate knowledge but they ve also created an info glut and left us too little time to process it What s more advances in technology have made the world so bewilderingly fast paced and complex that fewer people are able even to grasp the problems let alone generate solutions That space between the problems that arise and our ability to solve them is the ingenuity gap and as we careen towards an increasingly harried and hectic future the gap seems only to widen As he explores the possible consequences of this gap Thomas Homer Dixon offers an absorbing assessment of the state of the world and our ability to fix it Culling from an astounding array of fields from economics to evolution political science to paleontology computers to communications he integrates his vast knowledge into an accessible and engaging argument This is a book with profound implications for everyone that we can ill afford to ignore *Environmental Change and Security Project Report* ,2001 **Fueling the Future** Andrew Heintzman,Evan Solomon,2005 A collection of essays that examines forms of alternate energy and promising new energy technologies which are cleaner safer and more reliable than oil **Journal of International Affairs** ,2002 [Issues in Science and Technology](#) ,2000 [The Future Public Health](#) Hanlon, Phil,Carlisle, Sandra,Lyon, Andrew,2012-03-01 This is a public health text aimed at bridging the gap between current public health values and skills and those required to tackle future challenges **Canadian Book Review Annual** Joyce M. Illustrated Short History of Progress Ronald Wright, 2006 In these acclaimed CBC Massey Lectures Ronald Wright argues that each time history repeats itself the price goes up The twentieth century was a time of runaway growth in human population consumption and technology placing a colossal load on all natural systems He demonstrates how our modern predicament is as old as civilization a 10 000 year experiment we have participated in but seldom controlled Only by understanding the patterns of human triumph and disaster can we recognize the experiment s inherent dangers and shape its outcome Wright s provocative text evokes striking images across time and space starting with Paul Gauguin s painting D O Venons Nous Que Sommes Nous O Allons Nous Where do we come from What are we Where are we going three questions that perfectly summarize the focus of his lectures In this new edition illuminating illustrations and sidebars complement Wright s arguments and allow readers to witness further evidence supporting his cautionary tale pub desc **Global Issues**
