Introducing Network Node Manager i (NMM i), the new power for capabilities enabling NOCs to manage modern networks. NMM i brings things you expect to find in a centralized console together, helping you streamline work to reduce errors, improve system uptime and cut network operations management.

## Product Highlights

Reduce complexity and improve service levels by introducing a unified console. Manage all your network devices from a single console, including configuration, monitoring, and troubleshooting. Streamline your workflow and improve your team's productivity.

Improve your network uptime and reduce your operational costs. Monitor your network 24/7 and receive alerts when issues arise. Troubleshoot problems quickly and efficiently, reducing downtime and improving your service to customers.

- Single console for configuration, monitoring, and troubleshooting
- Streamlined workflow for improved productivity
- 24/7 monitoring and alerting

## Key Features and Capabilities

Network Node Manager i offers a unified console for all your network devices. This means you can manage your entire network from a single interface, making it easier to configure, monitor, and troubleshoot. The console also provides a central location for all your network logs and events, allowing you to quickly identify and resolve issues.

Another key feature is the ability to receive alerts and notifications when issues arise. This allows you to proactively monitor your network and respond to problems before they become major incidents.

## Network Node Manager i Operational Efficiency

- Streamlined workflow for improved productivity
