## Interests Of Criticism:

The Interests of Criticism Hazard Adams, 1969      Modern criticism. Appendix I. The Oxford chair of poetry. Appendix II. American criticism George Saintsbury, 1917      Interest and Principle in Literary Criticism John Perry Pritchett, 1965      **The Collected Writings of Thomas De Quincey: Literary theory and criticism** Thomas De Quincey, 1890      **A History of Criticism and Literary Taste in Europe from the Earliest Texts to the Present Day: From the renaissance to the decline of eighteenth century orthodoxy** George Saintsbury, 1902      **John Ruskin, considered as an art critic** Mrs Richard R. Armstrong, 1889      **The Issue in Literary Criticism** Myron Franklin Brightfield, 1968 This book aims to give organic and systematic expression to the working principles of literary criticism Preface      **Coleridge's Shakespearean Criticism** Samuel Taylor Coleridge, 1930      **The Interest of Criticism** Hazard Adams, 1962      **Annual Conference on Educational Measurements** ,1928      **Future Practices of Citizenship in Asia and the West** Gregory Bracken, Paul Rabé, Nurul Azreen Azlan, 2025-10-01 Future Practices of Citizenship in Asia and the West investigates some of the greatest challenges facing society in the twenty first century including the struggle for rights and recognition by indigenous peoples women migrants and the young as well as the dampening effects some government responses to COVID 19 have had on artistic freedom and citizen participation The ill effects of digitisation on citizenship however are tempered by some more positive approaches from grass roots activities Perhaps the most acute challenge facing the world today is climate change an issue that can be both positive and negative depending on how we respond to it All the papers in this book share a people centred approach based around Michel Foucault's Care of the Self      **The Commoner Condensed** ,1906      *Work Time* Evan Watkins, 1992-03-01 This book shares with a number of recent studies an interest in the historical development of English in the United States in how it became a central discipline in the humanities and in what the ideological affiliations of literature and literary study might be It is strikingly original however in that instead of focusing on the subject matter of English e.g the canon or critical positions as most recent studies it examines precisely how work time is spent within English departments as well as what circulates through them and to where For in terms of immediate social authority such activities as writing letters of recommendation are more directly relevant than critical methodology The author concludes by locating cultural work in English between such massively capitalized sites of cultural production as television and advertising and popular cultures meaning what people do every day with whatever is cheaply available to them English is like the former in that it requires highly developed socially certified skills and knowledges Like popular cultures however work in English is carried out with readily available material means By recognizing this actual situation he argues one can view English as not just passively reproducing the existing system of social values but as working within popular culture to provide the possibility of meaningful political opposition      In His Father's Shadow Stanley A. Renshon, 2015-03-10 From a pampered son who showed little promise to his rise to the presidency George W Bush has transformed himself through acts of will and faith

Stanley Renshon examines the psychological transformation of Bush and identifies those pivotal changes that allowed him to achieve success in his personal life and in the political arena and shows how Bush's personal transformation has come to shape his political policies. The man who battled and defeated his own inner demons has become a president determined to battle the demons of terrorism and extremism that prevent democracy from flourishing around the world. This psychological portrait provides a much needed antidote to prevailing critiques that ridicule Bush's values and policies as it celebrates his resolve and strong leadership.

*Reputation and Judicial Tactics* Shai Dothan, 2015

This book argues that national and international courts seek to enhance their reputations through the strategic exercise of judicial power. Courts often cannot enforce their judgments and must rely on reputational sanctions to ensure compliance. One way to do this is for courts to improve their reputation for generating compliance with their judgments. When the court's reputation is increased, parties will be expected to comply with its judgments and the reputational sanction on a party that fails to comply will be higher. This strategy allows national and international courts which cannot enforce their judgments against states and executives to improve the likelihood that their judgments will be complied with over time. This book describes the judicial tactics that courts use to shape their judgments in ways that maximize their reputational gains.
