*The Cosmic Joker and the Link Between Creativity, Free Will and Humour* Lora Khaha,2017-12-24 The archetype of the trickster is constantly brought up throughout cultures and time as a rudiment of primitive mentality but also as a drive towards cultural progress My initial interest in the role of the joker came from a psychedelic experience where I had an encounter with this mythical creature and this was one of the most terrifying but simultaneously interesting moments of my life He represents an archetype with profound significance in life He is the face that needs to be seen His role is extraordinary important ancient and haunting I am undertaking this research to find the reason it appears throughout culture the function it serves to what primordial need it responds as well as how we benefit from his persona The joker is institutionalized in some mythologies as a god to provide an image that solutes the contradiction in this categorical clash This paradox is encoded in human nature and results in some of the great enigmas of life
