Cosmic Witness Commentaries On Science Technology Themes:

Cosmic Witness George L. Murphy, Lavonne Althouse, Russell Willis, 1996 Since the Church is called to preach the Gospel in a world which is profoundly influenced by science and technology it is important to know ways in which Scripture provides resources to address scientific and technological concerns This book will help to develop sermons which address the intersection between Christian faith and contemporary knowledge It introduces and examines crucial issues and ideas and provides illustrations which will entice preachers to preach on contemporary topics Not only will preaching from this commentary enrich our spiritual life it will also challenge and deeply shape our response to the preached World in our individual and social lives Philip Hefner Professor of Systematic Theology Lutheran School Theology at Chicago

Celebrating Nature by Faith H. Paul Santmire, 2020-09-09 Sometimes it is helpful to take one step backward in order to take two steps forward In this insightful volume H Paul Santmire draws on his long standing and widely recognized engagement with ecological theology to propose that the traditions of the Protestant Reformation rightly read offer rich resources today for those who are struggling to move forward to respond theologically to the crisis of a planet in peril and thereby to celebrate nature by faith

The Entangled God Kirk Wegter-McNelly, 2012-03-12 In *The Entangled God* Kirk Wegter McNelly addresses the age old theological question of how God is present to the world by constructing a novel scientifically informed account of the God world relation Drawing on recent scientific and philosophical work in quantum entanglement Wegter McNelly develops the metaphor of divine entanglement to ground the relationality and freedom of physical process in the power of God s relational being *The Entangled God* makes a three fold contribution to contemporary theological and religious discourse First it calls attention to the convergence of recent theology around the idea of relationality Second it introduces theological and religious readers to the fascinating story of quantum entanglement Third it offers a robust plerotic alternative to kenotic accounts of God s suffering presence in the world Above all this book takes us beyond the view of theology and science as adversaries and demonstrates the value of constructively relating these two important areas of intellectual investigation

Nature Reborn H. Paul Santmire, Santmire s much acclaimed *The Travail of Nature The Ambiguous Ecological Promise of Christian Theology* documented the unfortunate legacy of many Christian theological notions in the use abuse and destruction of the natural world along with its positive aspects This new brief but penetrating look at Christian theological concepts of nature returns to the fray this time to reclaim classic mostly pre modern Christian themes and re envision them in light of the global environmental and cultural crisis This revisionist work to revise the classical Christian story in order to identify and to celebrate its ecological and cosmic promise mines Christian cosmology the Great Chain of Being Christology Creation and Eucharist so that the Christian story can be then rediscovered history reshaped theology re experienced spirituality and re enacted ritual
