Cosmic Moral Law:

Cosmic Moral Law Omraam Mikhaël Aïvanhov, 2014-09-08 True morality is everywhere manifest in Nature the extension of the natural laws that govern our psychic life When human beings break these laws they pay by suffering or illness The reader will no doubt be surprised to learn that true morality is not a limitation on the contrary it confers tremendous freedom and increases our power of action *Cosmic Moral Laws* Omraam Mikhaël Aïvanhov, 1984 [Cosmic Moral Laws](#) Omraam Mikhaël Aïvanhov, 1975 [The Philosophy of the Bhagavad Gita](#) Ramesh Chandra Pradhan, 2025-10-06 This book delves into the moral and metaphysical foundations of the philosophy of the Bhagavad Gita into two parts Part one explores the moral philosophy of the Bhagavad Gita detailing the structure of moral actions the nature of moral agency and the primacy of free will within a universe governed by eternal divine laws The second part of this book examines the divine order of the universe explaining the nature of the supreme Godhead that orchestrates the cosmos according to fixed moral laws or dharma Unlike traditional commentaries this book offers an analytical study of Gita's core moral and metaphysical concepts It elucidates why moral agents must detach from their actions and surrender their ego and agency to Godhead viewing their actions as offerings or yajna It provides a roadmap for overcoming temporal struggles to attain the timeless reality of the Divine Presenting the Gita as an open ended philosophical text this book addresses how ordinary individuals can lead morally enlightened and spiritually fulfilled lives *Science as Revelation* John M. Watson, 1925

Reincarnation as a Christian Hope Geddes MacGregor, 1982-06-18 **Studies in Stoicism** P. A. Brunt, Michael Crawford, 2013-03-28 This important volume fulfills one of Peter Brunt's 1917-2005 last wishes a collection of his most important papers in the area of scholarship that had occupied him in his earliest years of research and which largely absorbed his attention after his retirement from the Camden Chair of Roman History at Oxford University in 1982 Brunt was interested primarily in Stoicism in the Roman period and his chief concern was the practical influence of its ethical teaching on political and social life Although his investigations were historical they required a complete mastery of the Stoic texts and doctrine Basing his work almost entirely on the ancient sources Brunt provides the most complete account and comparison available today not only of the ideas of the Roman Stoic moralists but also of the political philosophy of the Greek founders of the Stoa He believed that the ideas of the Stoics of the Roman period were essentially continuous with the thinking of the founders and he did not accept that the concern with practical everyday morality in later Stoicism was a new development Studies in Stoicism contains six unpublished and seven republished essays the latter incorporating additions and changes which Brunt wished to be made The papers have been integrated and arranged in roughly chronological order and by subject matter with an accessible lecture to the Oxford Philological Society serving as Brunt's own introduction **Trends of Thought and Christian Truth** John Augustus William Haas, 1915 **Understanding Folk Religion: 25th Anniversary Edition** Paul G. Hiebert, R. Daniel Shaw, Tite Tienou, 2024-04-24 This book has served the missiological community for twenty

five years as a resource for understanding human spirituality in any context Thousands of students have incorporated the principles of this book into ministry around the globe This twenty fifth anniversary edition seeks to enable those who now bring their passion for mission to contemporary contexts affected by globalization climate change and political perspectives unimagined when this book originally appeared Every community wherever it is on earth has its share of beliefs and values that manifest themselves in practices that reflect spiritual engagement Those engaged in mission need to appreciate how underlying beliefs and values are reflected in handling spiritual power worship and blessing and interaction with others Gospel communicators must account for these elements as they seek to make God s intentions known to people who are searching for God The models presented early in the book are essential for establishing what people consider spiritually critical Applying these models in any religious environment will enable message bearers to engage with beliefs and practices that promote a gospel presentation that makes sense To that end we commend this book for effective missional engagement
