Cosmopolitan Vision Ulrich Beck, Ciaran Cronin, 2014-11-05 In this new book Ulrich Beck develops his now widely used concepts of second modernity risk society and reflexive sociology into a radical new sociological analysis of the cosmopolitan implications of globalization Beck draws extensively on empirical and theoretical analyses of such phenomena as migration war and terror as well as a range of literary and historical works to weave a rich discursive web in which analytical critical and methodological themes intertwine effortlessly Contrasting a cosmopolitan vision or outlook sharpened by awareness of the transformative and transgressive impacts of globalization with the national outlook neurotically fixated on the familiar reference points of a world of nations states borders sovereignty exclusive identities Beck shows how even opponents of globalization and cosmopolitanism are trapped by the logic of reflexive modernization into promoting the very processes they are opposing A persistent theme running through the book is the attempt to recover an authentically European tradition of cosmopolitan openness to otherness and tolerance of difference What Europe needs Beck argues is the courage to unite forms of life which have grown out of language skin colour nationality or religion with awareness that in a radically insecure world all are equal and everyone is different

Jansson, 2015-05-19 *Cosmopolitanism and the Media* explores the diverse implications of today's digital media environments in relation to people's worldviews and social practices The book presents an empirically grounded account of the relationship between cosmopolitanized lifeworlds and forces of surveillance control and mobility

Ham Sok Hon's Social Cosmopolitan Vision Song-Chong Lee, 2020 Song Chong Lee's *Ham Sok Hon's Social Philosophy for a Cosmopolitan Vision* offers an introduction to the philosophy of Ham Sok Hon an iconic figure in the intellectual and political history of modern Korea and a discussion of the contributions of his social seeds people philosophy to

cosmopolitanism Known as Gandhi of Han guk Ham 1901 1989 was at the epicenter of a series of tumultuous political events in Korea and played a pioneering role in progressive social activism including the independence movement promotion of nationalist education protests against military regimes and pietistic religious liberalism According to Lee Ham developed his own syncretic authentic philosophy of social and applied it to his understanding and assessment of theology history politics and even international relations His syncretism culminated at his anthropology of social and his expanded notion of community Lee argues that Ham's social philosophy which reconstructed the citizen's identity as an active agent for political progress led him to defy the excessively parochial nationalism romanticized patriotism and indoctrinated religiosity with which he believed the whole society was infatuated during the mid twentieth century and ultimately to advocate for a cosmopolitan community

Risk, Global Governance and Security Yee-Kuang Heng, Ken McDonagh, 2009-03-26 This book steers discussion of the war on terror away from the militaristic tinge it has acquired back to the idea that increased global cooperation and a cosmopolitan agenda would be the best solution to managing globalised risks like terrorism

Migration, Cosmopolitanism and Civil Society Feyzi Baban, Kim Rygiel, 2024-09-23 This book discusses the ways civil society initiatives open communities to newcomers and why how and under what circumstances some are more welcoming than others exploring the importance of transgressive cosmopolitanism as a basis for creating more inclusive and pluralistic societies The question of how to live together in increasingly multicultural multi ethnic and multireligious societies is a pressing political and policy issue particularly as we witness a rise in right wing populism and anti immigrant sentiments This book addresses the limitations of approaches that seek to secure borders preventing the arrival of newcomers altogether or that vacillate between assimilation and multiculturalism The authors explore the concept of cosmopolitanism and its utility by theorizing from real world examples including Germany's Welcome Culture and Denmark's Kind Citizens movements and other smaller scale initiatives such as arts and museum projects kitchen hubs and shared living accommodation

Interdisciplinary in nature and bringing conceptual discussions together with everyday examples this book focuses on forms of activity generally left out of wider debates around protest and social movement literature It emphasizes different types of activities undertaken by civil society groups who do not necessarily self identify as political but whose activities can counter right wing populism This dialogue between concepts and everyday politics makes the volume a very useful companion to classroom discussion and will facilitate its own exchange between scholars activists and practitioners

Son of Spinoza Søren Blak Hjortshøj, 2021-02-11 Son of Spinoza sheds light on the interconnectedness between Jewishness and cosmopolitanism in the oeuvre of the Danish Jewish intellectual Georg Brandes 1842 1927 Today the historical tradition of interconnecting these concepts has largely been forgotten although the construction of a somewhat synonymous relation between them became a key structuring element of modern antisemitism and later Nazi ideology In this context Georg Brandes his writing and practice stands as a crucial European cosmopolitan archive due to the great influence he enjoyed
