

**THE
COUNTER-REVOLUTION
IN FRANCE
1787-1830**

James Roberts

Counter Revolution In France 1787 1830

Gregory Fremont-Barnes

Counter Revolution In France 1787 1830:

The Counter-Revolution in France 1787-1830 James Roberts, 1990-07-27 The most violent aspects of the Revolution the most costly in life were the result of the conflict between Revolution and Counter Revolution A large part of the French people felt betrayed by a Revolution which did nothing for them and which represented an attack on their way of life The rebellions which this provoked and their savage repression marked the political map of France for over a century At the same time the doctrines of Counter Revolution which offered a positive alternative to the Revolution were being developed in exile by royal and aristocratic migrants This book brings together the latest work on a subject which is central to an understanding not just of the French Revolution but of much French political controversy over the past two centuries The Counter-revolution in France, 1787-1830 James Roberts, 1990

Republicanism in Nineteenth-Century France, 1814-1871 Pamela Pilbeam, 1995-02-27 This book is a fascinating survey of nineteenth century republicanism the first of its kind this century It investigates why it was that although France was one of the first countries in modern Europe to become a republic in 1792 it was nearly a hundred years before a republic was acceptable to the majority Pamela Pilbeam suggests that republicanism was a witch's brew of Enlightenment rationality bloody memories and conflicting socialist expectations The book concludes that the successful republic of 1871 used the rhetoric of democracy to conceal persistent elitism

A History of Counterinsurgency Gregory Fremont-Barnes, 2015-05-05 This two volume history of counterinsurgency covers all the major and many of the lesser known examples of this widespread and enduring form of conflict addressing the various measures employed in the attempt to overcome the insurgency and examining the individuals and organizations responsible for everything from counterterrorism to infrastructure building How and when should counterinsurgency be pursued as insurgency is growing in frequency and conversely while conventional warfare continues to decline as a means by which political rivals seek to impose their will upon each other What lessons from the past should today's policymakers strategists military leaders and soldiers in the field keep in mind while facing off against 21st century insurgents This two volume set offers a comprehensive history of modern counterinsurgency covering the key examples of this widespread and enduring form of conflict It identifies the political military social and economic measures employed in attempting to overcome insurgency examining the work of the individuals and organizations involved demonstrating how success and failure dictated change from established policy and carefully analyzing the results Readers will gain valuable insight from the detailed assessments of the history of counterinsurgency that demonstrate which strategies have succeeded and which have failed and why After an introductory essay on the subject each chapter provides historical background to the insurgency being addressed before focusing on the specific policies pursued and actions taken by the counterinsurgency force Each section also provides an assessment of those operations including in most cases an analysis of lessons learned and where appropriate their relevance to counterinsurgency operations today The set's coverage spans modern counterinsurgencies from Europe to

Asia to Africa since 1900 and includes the ongoing counterinsurgency operations in Afghanistan today Its wide international approach to the subject makes the set a prime resource for readers seeking specific information on a particular conflict or a better understanding of the general theories and practices of counterinsurgency

The Extreme Right in France, 1789 to the Present Peter Davies,2002 Since 1789 the far right has been an important factor in French political life and in different eras has taken on a range of different guises This work surveys the history of this contentious political and intellectual tradition

The Constitutional Monarchy in France, 1814-48 Pamela M. Pilbeam,2014-07-30 Historians in France assume that the restoration of Monarchy after the defeat of Napoleon was doomed The first compact recent history of the period in English this book reveals that although the French experimented with two Monarchies and a Republic 1814 48 there was substantial stability The Institutional framework constructed during the Revolutionary years 1789 1814 remained intact and the ruling elites retained basic control

Revolutionary France Malcolm Crook,2002 In this volume one of the first to look at Revolutionary France as a whole a team of leading international historians explore the major issues of politics and society culture economics and overseas expansion during this vital period of French history

The Oxford History of the French Revolution William Doyle,2018-06-29 Since its first publication to mark the bicentenary of the French Revolution in 1989 this Oxford History has established itself as the Revolution s most authoritative and comprehensive one volume history in English and has recently been translated into Chinese Running from the accession of Louis XVI in 1774 it traces the history of France through revolution terror and counter revolution to the final triumph of Napoleon in 1802 It also analyses the impact of events in France upon the rest of Europe and the world beyond The study shows how a movement which began with optimism and general enthusiasm soon became a tragedy not only for the ruling orders but also for the millions of ordinary people whose lives were disrupted by religious upheaval economic chaos and civil and international war Now in its third edition this volume has been fully updated in the light of current research and includes an appendix surveying the past and present historiography of the revolutionary period

The French Counterrevolutionary Theorist, Louis de Bonald (1754-1840) David Klinck,1996 This examination of the life and thought of Louis de Bonald 1754 1840 one of the foremost theorists of the French Counterrevolution challenges the commonly held view that he was a defender of a traditional social order and of a pre scientific way of thinking This study shows that Bonald argued on behalf of the idea of the unlimited power of the state over groups and individuals prefiguring fascism It demonstrates that his organistic view of society which he developed in opposition to the Cartesian idea of the subject placed Bonald within the French social science tradition extending from Saint Simon to Foucault

[Encyclopedia of the Age of Political Revolutions and New Ideologies, 1760-1815](#) Gregory Fremont-Barnes,2007 Covers the people events and ideas that shaped the transformative political ideologies arising from the American and French Revolutions

The Eighteenth Century ,1974 **The European Studies Journal** ,1992

A History of the Modern World Robert Roswell Palmer,Joel Colton,1992 **The Encyclopedia of the French**

Revolutionary and Napoleonic Wars Gregory Fremont-Barnes, 2006 This comprehensive three volume work on the French Revolution and Napoleon's rule and campaigns covers a wide range of military, political, social, and cultural events and personalities during a time of dramatic change in Europe. In three extraordinarily rich volumes, *The Encyclopedia of the French Revolutionary and Napoleonic Wars* captures the full sweep and legacy of the transformation of Europe from 1792 to 1815. Its nearly 900 alphabetically organized, fully cross-referenced entries provide students and general readers with vivid biographies of politicians, sovereigns, and commanders; accounts of battles, weaponry, and diplomatic affairs; insights into the art, music, and culture of the times; and much more. Unlike other works on the subject, this encyclopedia combines coverage of Napoleon's rule with that of the crucial Revolutionary years in France that set the stage for his rise to power. It includes contributions from the most wide-ranging group of international experts ever assembled for a work on this era. Students will see the full continent-wide impact of France's evolution from aristocracy to democracy to military autocracy and explore the effects of nationalism, empire building, industrialization, and international conflict, which resonate with more relevance today than ever.

Napoleon's Legacy David Laven, Lucy Riall, 2000-02 A revisionist collection of essays which reassess the legacy of the French Revolution and the Napoleonic Wars on the governments of Restoration Europe. The papers are based on recent research.

Architecture and Counter-revolution in Lyon (1795-1825) Lorean De Pontee Boornazian, 1992 [Les Marseillaises](#) Laura Emerson Talamante, 2003

Napoleon Comes to Power Malcolm Crook, 1998 In *Napoleon Takes Power*, the author traces the rise to power of the Emperor and also examines the events before and after the coup d'état of 1799.

The French Revolution Frank A. Kafker, James Michael Laux, Darline Gay Levy, 2002 This is an anthology organized around conflicting interpretations of 11 of the most important issues and events of the French Revolution. It includes interpretations by contemporary and earlier historians, and no one view or school of revolutionary studies is stressed.

Two Kingdoms Robert G. Clouse, Richard V. Pierard, Edwin M. Yamauchi, 1993 Three of today's foremost church historians have succeeded in producing an invaluable introduction to church history that focuses on the influence of the church on culture and the impact of society on the church. A unique study that affirms that church history is not exclusively European or American but is truly a global story with global significance.
