ABSOLUTE ETHICS and COSMIC MORALITY Frank Luger, 2019-07-23 This is the companion volume to Absolute Relativity and the Relativity of the Absolute The human relevance of the Absolute is Ethics which is manifest by cosmic morality via cosmodynamics the modus operandi of the Absolute Human morality ought to mirror cosmic morality for optimal alignment with the Absolute for which a new set of guidelines the Thirty Commandments were introduced together with the basic propositions of a new ideology called Mirism from the Russian Mir meaning both world and peace It was suggested that the solution to the external problems of Mankind is progressive colonization of outer space with the strict proviso of not exporting our Evil and contaminating the Cosmos thereby while the internal solution is moral maturation Once maturation will have reached the level of integrity then Mankind will have earned evolution into the next phase the Cosmic Era

Science as Revelation John M. Watson, 1925 Studies in Stoicism P. A. Brunt, Michael Crawford, 2013-03-28 This important volume fulfills one of Peter Brunt's 1917-2005 last wishes a collection of his most important papers in the area of scholarship that had occupied him in his earliest years of research and which largely absorbed his attention after his retirement from the Camden Chair of Roman History at Oxford University in 1982 Brunt was interested primarily in Stoicism in the Roman period and his chief concern was the practical influence of its ethical teaching on political and social life Although his investigations were historical they required a complete mastery of the Stoic texts and doctrine Basing his work almost entirely on the ancient sources Brunt provides the most complete account and comparison available today not only of the ideas of the Roman Stoic moralists but also of the political philosophy of the Greek founders of the Stoa He believed that the ideas of the Stoics of the Roman period were essentially continuous with the thinking of the founders and he did not accept that the concern with practical everyday morality in later Stoicism was a new development Studies in Stoicism contains six unpublished and seven republished essays the latter incorporating additions and changes which Brunt wished to be made The papers have been integrated and arranged in roughly chronological order and by subject matter with an accessible lecture to the Oxford Philological Society serving as Brunt's own introduction

Three Perspectives of Anthroposophy Rudolf Steiner, 2021-04-28 What is truly real Rudolf Steiner sheds light on everyday reality through spiritual knowledge repeatedly urging us to bring anthroposophy into daily human existence We might consciously

experience the difference between consuming a potato as compared to cereals such as rye for example or we could grasp ordinary phenomena such as sleepwalking through an understanding of the threefold human being Likewise we might strive to comprehend how our head is the transformed organism of our previous life Throughout Steiner emphasizes that we can achieve spirituality on earth if only we make anthroposophy real The twelve lectures here were delivered during the portentous year of 1923 in the context of increasing attacks from Steiner's opponents His architectural masterpiece the first Goetheanum had already been destroyed by fire but he was yet to refound the Anthroposophical Society at the Christmas Conference In these uncertain times Steiner speaks of the decline of European culture and the development of materialism as a philosophy leaving anthroposophy with no exoteric foundation on which to build But Rudolf Steiner strikes a positive note with an exciting and constructive way forward providing us with the tools to see the world through three key perspectives of anthroposophy the physical the soul and the spiritual dimensions of reality This previously unpublished volume is translated by Elizabeth Marshall and includes an introduction notes and index *A Cosmic View of Religion* William Riley Halstead,1913
