Cosmos Of Desire

Bradley H. McLean

Cosmos Of Desire:

Desire and Liberation A. Raghuramaraju, 2017-12-15 In *Desire and Liberation* Vaddera Chandidas creates a new metaphysical system He bases this new system on earlier Indian traditions of sutra literature The author rejects major convergences in philosophy from both India and the West especially on the ontological primacy of non being that results in permanence which he posits as a mere project of the intellect He is especially opposed to the idea of permanence which renders unreliable anything that is not permanent but changing Thus desire which is not permanent is marginalized Chandidas points out that contradictoriness is the structural tinge of reality Therefore in his philosophy all that is claimed to be permanent is marginal and derivative of the intellect A Raghuramaraju has curated and edited this volume which proposes a major breakthrough in the field of philosophical studies The volume reproduces not only *Desire and Liberation* and Kalidas Bhattacharyya s introduction to it but also the letters that Bhattacharyya wrote to Chandidas and Chandidas s own commentary on his text

Anderson, 1895 Deleuze, Guattari and the Machine in Early Christianity Bradley H. McLean, 2022-07-28 Expanding the impact of Gilles Deleuze and Félix Guattari s philosophy to the disciplines of Christian Origins and Christian theology this original study makes the case for understanding early Christianity through such Deleuzioguattarian concepts as the rhizome the machine the body without organs and the multiplicity using the theoretical tool of schizoanalysis to do so The reconstruction of the historical emergence of early Christianity Bradley H McLean argues has been constrained by traditional assumptions about its historical and transcendental origins These assumptions are ill suited to theorizing the genesis change and transformation of early Christianity in the first three centuries of the Common Era To capture the dynamism of early Christianity McLean applies Guattari s concept of the machine to the analysis of early Christianity Arguing that machines are both an unnoticed dimension of early Christianity and a major analytical tool for the discipline McLean highlights the potential of the philosophy of Deleuze and Guattari to challenge and reconfigure not just our knowledge of early Christianity but all aspects of Hellenistic Judaism and the Greco Roman world as well as our understanding of Jesus of Nazareth and the Jesus movement By subverting the concept of a single transcendental or historical origin of Christianity this book facilitates new forms of dialogue and cooperation between Christians and co religionists Glimpses of the Cosmos Lester Frank Ward, 1917 Cosmic Intelligence and You S Rengarajan, 2016-11-11 Everyone is eager to know where one has come from and where one is heading to Since the universe itself is a creation from the abstract source God it becomes difficult to give valid answers by realistic logics Hence all attempts to explain this phenomenon till now through inference comparison

deduction and belief have ended up inconclusively leaving bits of confusion and dismay in many minds In this book an attempt is made to logically analyze the Vedantic axiom God has desired let me be many and savor the diversities This book begins with the invincible qualities of the Source of creation itself and then proceeds in logical steps as to how It has permeated through Its manifestations in various stages of their progress Only an awareness that the self healing phenomenon forms the basic building block in all entities helps the reader to follow the subject matter with ease As the Source itself is an embodiment of unlimited faculties one may find equal or perhaps more enthusiasm while arriving at a relationship with the source the self through the faculties naturally nurtured by one s abilities There are thus unlimited paths that lead one to bliss *The Theosophical Path* Katherine Augusta Westcott Tingley, Gottfried Purucker, 1926 *Deep Mind and Whispers of Eternity* Pankaj Sudan, 2025-03-17 This book would prove invaluable for those who wish to delve into the process of self knowing While the path of spirituality may provide a few direct instructions as this path necessitates self exploration and self reliance this book mostly provides parallel clues which a reader may uncover depending upon his degree of mental clarity and grasping capability *A Manual of Ethics* John Stuart Mackenzie, 1929 **The Rosicrucian Cosmo-conception** Max Heindel, 1911 *The Theosophical Review* , 1903 *Byzantion* Paul Graindor, Henri Grégoire, 2007 Includes section Comptes rendus **The Theosophical Quarterly** , 1926 *Theosophical Quarterly* , 1926 **Inspiration, and Other Lectures** Thomas George Rooke, 1893 **The Study** , 1875 *The Rosicrucian Cosmo-conception, Or, Mystic Christianity* Max Heindel, 1911 **Cosmic Art and Other Addresses** Charles N.
