A comprehensive overview. Dr. Hakim Saboowala,2020-02-21 The term sudden infant death syndrome SIDS was first proposed in 1969 in order to focus attention on a subgroup of infants with similar clinical features whose deaths occurred unexpectedly in the postnatal period Today the definition of SIDS refers to death in a seemingly healthy infant younger than 1 year of age whose death remains unexplained after a thorough case investigation including a complete autopsy review of medical and clinical history and death scene investigation SIDS is typically associated with a sleep period with death presumed to have occurred during sleep itself or in the transition between sleep and waking This led to application of the terms cot or crib death however these terms are rarely used today Furthermore while the definition is inclusive of infants up to 1 year of age approximately 95% of SIDS deaths occur in the first six months of life with a peak incidence in infants aged between 2 to 4 months While there are distinctive features associated with the syndrome there are no diagnostic features that can be attributed to a SIDS death Indeed application of the term relies on a process of elimination and when no known cause of death or contributing factors can be determined the term SIDS is usually applied Thus an attempt has been made in this informative E Booklet to present an ongoing debate comprehensively regarding the definition and use of the term SIDS since no one definition has been universally accepted but still one certainty persists and that is that SIDS still remains a diagnosis of exclusion Dr H K Saboowala M B Bom M R S H London Cot Death ,1992 Crib Death Giulia Ottaviani,2007-08-10 Crib death SIDS is the most frequent cause of death for infants during the first year A systematic study of the autonomic nervous system and cardiac system has been performed on a large number of infants and fetuses who died suddenly and unexpectedly as well as in age matched control cases The neurological and cardiac findings are described here and the relationship between SIDS and unexplained fetal death is discussed *Investigation of Sudden Infant Death Syndrome* Marta C.
