Planning sections help nurses plan and prioritize care by emphasizing Goals and Outcomes, Setting Priorities and Teamwork and Collaboration. More than 20 concept maps show care planning for clients with multiple nursing diagnoses. UNIQUE Critical Thinking Model in each clinical chapter shows you how to apply the nursing process and critical thinking to provide the best care for patients. UNIQUE Critical Thinking Exercises help you to apply essential content. Coverage of interprofessional collaboration includes a focus on patient-centered care, Indigenous peoples' health, referencing the Truth and Reconciliation Commission (TRC) Report, the CNA Code of Ethics and Medical Assistance in Dying (MAID) legislation. Evidence-Informed Practice boxes provide examples of recent state-of-the-science guidelines for nursing practice. Research Highlight boxes provide abstracts of current nursing research studies and explain the implications for daily practice. Patient Teaching boxes highlight what and how to teach patients and how to evaluate learning. Learning objectives, key concepts and key terms in each chapter summarize important content for more efficient review and study.
