Adolf Loos:

Adolf Loos Roberto Schezen, Kenneth Frampton, Joseph Rosa, 2009-06-16 Adolf Loos not only was part of the first wave of modern architecture but also served as an important source of inspiration for all architects who followed He is emblematic of the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth Loos's masterful stylistic architecture is captured in this volume by the esteemed photographer Roberto Schezen in over one hundred exceptional photographs Starting with the refurbishment of his own apartment in 1903 twenty of Loos's most significant buildings are beautifully displayed Villa Karma the Kärntner Bar the Goldman his commentary on architecture's position between art and function plus subtle recollections of both the classic and the vernacular All these ploys were to subvert typical architectural expectations Joseph Rosa's accompanying descriptions comprehensively discuss each building from the circumstances surrounding the realization of the projects to the use of Loos's architectural conventions

Adolf Loos Joseph Masheck, 2013-03-21 Widely regarded as one of the most significant prophets of modern architecture Adolf Loos was a celebrity in his own day His work was emblematic of the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth His essay Ornament and Crime equated superfluous ornament and decorative arts with tattooing in an attempt to tell modern Europeans that they should know better But the negation of ornament was supposed to reveal not negate good style and an incorrigible ironist has been taken too literally in denying architecture as a fine art Without normalizing his edgy radicality Masheck argues that Loos's masterful stylistic architecture was an appreciation of tradition and utility and not as most architectural historians have argued a mere repudiation of the florid style of the Vienna Secession Masheck reads Loos as a witty ironic rhetorician who has all too often been taken at face value Far from being the anti architect of the modern era Masheck's Loos is an unruly yet integrally canonical artist architect He believed in culture comfort intimacy and privacy and advocated the evolution of artful architecture This is a brilliantly written revisionist reading of a perennially popular architect

Ornament and Crime Adolf Loos, 2019-05-30 Revolutionary essays on design aesthetics and materialism from one of the great masters of modern architecture Adolf Loos the great Viennese pioneer of modern architecture was a hater of the fake the fussy and the lavishly decorated and a lover of stripped down clean simplicity He was also a writer of effervescent caustic wit as shown in this selection of essays on all aspects of design and aesthetics from cities to glassware furniture to footwear architectural training to why the lack of ornament is a sign of intellectual power Translated by Shaun Whiteside With an epilogue by Joseph Masheck

Adolf Loos Alessandra Coppa, 2013 Isolated from the architectural climate of his day and at odds with the principles of the Vienna Secession Austrian born Adolf Loos with his Neo Rationalist constructions and the reform of architectural language which opposed the ornament in favour of pure utility laid the very foundations for the Modern Movement And yet for Loos the architect's trade was none other than a revival of the skills of

both the craftsman and the mason supported by a profound sensitivity for chromatic and spatial aspects in the belief that the rooms in a house stimulated states of mind in the person who inhabited them This was Loos theory of Raumstimmungen which he developed in his writings It is hardly surprising that his most famous project which remained an unrealised icon repropose the image of an immense black granite Doric column presented in 1922 for the competition for the Chicago Tribune newspaper headquarters By transforming a column into a habitable building Loos project broke away from the form of the skyscraper of modern American history and suggested the idea of architecture inspired by Antiquity A new Antiquity that would make way for an unstoppable tendency from the curved line to geometry from form to function and all based on the awareness that the true modern style must represent the end of all styles and the rebellion against ornament i e houses wearing a wig and bloomers

Adolf Loos Panayotis Tournikiotis,1994 Viennese architect Adolf Loos was one of the most important pioneers of the European Modern Movement Born in 1870 he was an early opponent of the decorative trends of Art Nouveau believing instead that architecture devoid of ornament represented pure and lucid thought His rationalist design theories were put into practice in the Karntner Bar Vienna 1907 Steiner House Vienna 1920 and Villa Muller Prague 1930 Surprisingly there is no other monograph on Loos in English currently available Adolf Loos joins Adalberto Libera and Albert Kahn in Princeton Architectural Press s historical monographs series and presents this great modernist s complete works through numerous illustrations

History of Architectural Theory Hanno-Walter Kruft,1994 As the first comprehensive encyclopedic survey of Western architectural theory from Vitruvius to the present this book is an essential resource for architects students teachers historians and theorists Using only original sources Kruft has undertaken the monumental task of researching organizing and analyzing the significant statements put forth by architectural theorists over the last two thousand years The result is a text that is authoritative and complete easy to read without being reductive

Adolf Loos Ludwig Münz,Gustav Künstler,1966

Architecture and Modernity Hilde Heynen,2000-02-28 Bridges the gap between the history and theory of twentieth century architecture and cultural theories of modernity In this exploration of the relationship between modernity dwelling and architecture Hilde Heynen attempts to bridge the gap between the discourse of the modern movement and cultural theories of modernity On one hand she discusses architecture from the perspective of critical theory and on the other she modifies positions within critical theory by linking them with architecture She assesses architecture as a cultural field that structures daily life and that embodies major contradictions inherent in modernity arguing that architecture nonetheless has a certain capacity to adopt a critical stance vis vis modernity Besides presenting a theoretical discussion of the relation between architecture modernity and dwelling the book provides architectural students with an introduction to the discourse of critical theory The subchapters on Walter Benjamin Ernst Bloch Theodor Adorno and the Venice School Tafuri Dal Co Cacciari can be studied independently for this purpose

Adolf Loos August Sarnitz,2016 With his passion for smooth surfaces fine lines and spatial plans Adolf Loos was a prophet of 20th

century architecture This essential introduction explores his rejection of ornamental forms and his radical pursuit of stark bold and beautiful design

Adolf Loos on Trial Christopher Long, 2018-02-27 In early September 1928 Viennese police arrested the famed architect Adolf Loos The charge was child molestation Two young girls and eventually a third aged eight to ten alleged that Loos had touched them inappropriately and compelled them to commit indecent acts while he was drawing nudes of them What followed was a very public affair that culminated in a sensational trial pitting Loos and his supporters against his many detractors But the controversy was about more than Loos guilt like almost everything in Austria in the late 1920s those involved saw the events through powerful political and cultural lenses The arrest and subsequent trial not only set the forces of the right against those of the left but also the city's avant gardists against their conservative critics This volume documents the controversy Christopher Long is Distinguished Professor at University of Texas Austin School of Architecture and the author of *The Looshaus* Yale 2012 and *The New Space* Yale 2016

Adolf Loos, Theory and Works Benedetto Gravagnuolo, 1982 *The Architecture of Adolf Loos* Mildred Budny, Wilfried Wang, Yehuda Safran, Adolf Loos, Arts Council of Great Britain, 1985

Adolf Loos Ralf Bock, Adolf Loos, 2007 In this volume Ralf Bock reveals for the first time the sensuality of Loos interior designs demonstrating that Loos was not an architect of the white modern movement but rather fought against it as he saw the work of purism move in the opposite direction of what he had envisioned He believed in culture comfort intimacy and privacy He advocated the evolution of tradition and utility and not revolution and the permanent invention of formal design
