Adoption Across Borders:

Adoption Across Borders Rita James Simon, Howard Altstein, 2000 For over thirty years Rita J Simon and Howard Altstein have been studying transracial and intercountry adoptions The families they have studied include white parents African American Hispanic and Korean children and Jewish Stars of David families among others This book summarizes their findings and compares them with other studies It is an invaluable source of data on the number and frequency of transracial and intercountry adoptions and on the attitudes toward them Moreover it strongly advocates and demonstrates the positive effects of transracial and intercountry adoptions countering public policy initiatives that emphasize same race adoption practices

The Globalization of Adoption Becca McBride, 2016-07-14 This book expands our understanding of a growing yet largely unstudied phenomenon the flow of children across borders through intercountry adoption What explains the spread of intercountry adoption through the international system over time McBride investigates the interconnected networks of states individuals and adoption agencies that have collaborated to develop the practice of intercountry adoption we see today This book tells the story of how adoption agencies mediate between individuals and states in two ways first by teaching states about intercountry adoption as a policy and second by helping states implement intercountry adoption as a practice McBride argues that this process of states learning about intercountry adoption from adoption agencies has facilitated the global development of the practice in the past seventy years

The Globalization of Adoption Rebecca Ann McBride, 2016 This book expands our understanding of a growing yet largely unstudied phenomenon the flow of children across borders through intercountry adoption What explains the spread of intercountry adoption through the international system over time McBride investigates the interconnected networks of states individuals and adoption agencies that have collaborated to develop the practice of intercountry adoption we see today This book tells the story of how adoption agencies mediate between individuals and states in two ways first by teaching states about intercountry adoption as a policy and second by helping states implement intercountry adoption as a practice McBride argues that this process of states learning about intercountry adoption from adoption agencies has facilitated the global development of the practice in the past seventy years

Babies Without Borders Karen Dubinsky, 2010-01-01 International adoptions are both high profile and controversial with the celebrity adoptions and critically acclaimed movies such as *Casa de los Babys* of recent years increasing media coverage and influencing public opinion Neither celebrating nor condemning cross cultural adoption Karen Dubinsky considers the political symbolism of children in her examination of adoption and migration controversies in North America Cuba and Guatemala *Babies Without Borders* tells the interrelated stories of Cuban children caught in Operation Peter Pan adopted Black and Native American children who became icons in the Sixties and Guatemalan children whose disappearance today in transnational adoption networks echoes their fate during the country's brutal civil war Drawing from extensive research as well as from her critical observations as an adoptive parent Karen Dubinsky aims to move adoption debates

beyond the current dichotomy of imperialist kidnap versus humanitarian rescue Integrating the personal with the scholarly Babies Without Borders exposes what happens when children bear the weight of adult political conflicts **Adoption Beyond Borders** Rebecca J. Compton,2016-02-01 International adoptions have decreased dramatically in the last decade despite robust evidence of the tremendous benefits that early placement in adoptive families can confer upon children who are not able to remain with birth families Adoption Beyond Borders integrates evidence from a range of disciplines in the social and biological sciences including psychology neuroscience evolutionary biology sociology anthropology and social work to provide a ringing endorsement of international adoption as a viable child welfare option The author interweaves narrative accounts of her own adoption journey which involved visiting a Kazakhstani orphanage daily for nearly a year to illustrate the complexities and implications of the research evidence Topics include the effects of institutionalization on children s developing brains cognitive abilities and socio emotional functioning the challenges of navigating issues of identity when adopting across national cultural and racial lines the strong emotional bonds that form even without genetic relatedness and the methods in which adoptive families can address the special needs of children who experienced early neglect and deprivation thereby providing a supportive environment in which those children can flourish Striving to attain a balanced evidence based perspective on controversial issues Adoption Beyond Borders argues that international adoption must be maintained and supported as a vital means of promoting international child welfare The Traffic in Babies Karen Andrea Balcom,2011-01-01 Exploring how and why babies were moved across borders The Traffic in Babies is a fascinating look at how social workers and other policy makers tried to find birth mothers adopted children and adoptive parents **The Globalization of Adoption** Becca McBride,2016 This book expands our understanding of the growing yet largely unstudied practice of intercountry adoption Invisible Asians Kim Park Nelson,2016-03-18 The first Korean adoptees were powerful symbols of American superiority in the Cold War as Korean adoption continued adoptees visibility as Asians faded as they became a geopolitical success story all American children in loving white families In Invisible Asians Kim Park Nelson analyzes the processes by which Korean American adoptees have been rendered racially invisible and how that invisibility facilitates their treatment as exceptional subjects within the context of American race relations and in government policies Invisible Asians draws on the life stories of more than sixty adult Korean adoptees in three locations Minnesota home to the largest concentration of Korean adoptees in the United States the Pacific Northwest where many of the first Korean adoptees were raised and Seoul home to hundreds of adult adoptees who have returned to South Korea to live and work Their experiences underpin a critical examination of research and policy making about transnational adoption from the 1950s to the present day Park Nelson connects the invisibility of Korean adoptees to the ambiguous racial positioning of Asian Americans in American culture and explores the implications of invisibility for Korean adoptees as they navigate race culture and nationality Raised in white families they are ideal racial subjects in support of the trope of colorblindness as a cure for

racism in America and continue to enjoy the most privileged legal status in terms of immigration and naturalization of any immigrant group built on regulations created specifically to facilitate the transfer of foreign children to American families

Invisible Asians offers an engaging account that makes an important contribution to our understanding of race in America and illuminates issues of power and identity in a globalized world Babies without Borders Karen Dubinsky, 2010-06-01

While international adoptions have risen in the public eye and recent scholarship has covered transnational adoption from Asia to the U S adoptions between North America and Latin America have been overshadowed and in some cases forgotten In this nuanced study of adoption Karen Dubinsky expands the historical record while she considers the political symbolism of children caught up in adoption and migration controversies in Canada the United States Cuba and Guatemala Babies without Borders tells the interrelated stories of Cuban children caught in Operation Peter Pan adopted Black and Native American children who became icons in the Sixties and Guatemalan children whose disappearance today in transnational adoption networks echoes their fate during the country's brutal civil war Drawing from archival research as well as from her critical observations as an adoptive parent Dubinsky moves debates around transnational adoption beyond the current dichotomy the good of humanitarian rescue against the evil of imperialist kidnap Integrating the personal with the scholarly Babies without Borders exposes what happens when children bear the weight of adult political conflicts Adoption Across Borders

Rojewski, Jacy L. Rojewski, 2001-06-30 Starting with questions about how to incorporate Chinese culture and custom into the lives of their adopted daughters Emily and Claire the authors began a year long search for answers The result is a detailed examination of the post adoptive views actions and experiences of a national sample of families with children from China toward acknowledging their adopted child's Chinese cultural heritage and the issues they face together as a multicultural family Historical and present day issues affecting intercountry adoptees and their families such as arguments used to support or oppose intercountry and transracial adoption developmental delay and the effects of institutionalization on Chinese adoptees parent child attachment discrimination and racial prejudice and identity development are detailed Parents beliefs and experiences on these issues are supplemented by a multi-disciplined comprehensive review of available literature While occasionally relying on personal experiences this book is not about the authors personal adoption story and parenting experiences Rather the focus is on common experiences and reactions of adoptive families who were for the most part firmly

ensconced in the cultural mainstream but now find themselves viewed differently by society these parents find that issues of culture race and ethnicity have become an important part of their everyday lives Adoption scholars and professionals as well as adoptive parents will benefit from reading *Intercountry Adoption from China* The Best Interests of the Child in Intercountry Adoption Nigel Cantwell,2014 This study explores the best interests principle in intercountry adoption It investigates what role the best interests principle should play in intercountry adoption and the overall conditions required for it to do so in keeping with the rights of the child Sections include best interests human rights and intercountry adoption the role and purpose of the best interests concept in a human rights context the changing role and purpose of intercountry adoption determining children s best interests in intercountry adoption and ensuring the right conditions for a best interests determination in intercountry adoption While there is general agreement that the best interests of the child should be the paramount consideration in intercountry adoption there is no consensus on who decides what is in a child s best interests or on what basis that decision should be made *Rethinking 'Mixed Race'* David Parker,Miri Song,2001-05-20 Eleven scholars from the U K and the U S contribute nine chapters exploring mixed race in a variety of settings through a variety of methodologies and perspectives Topics include gender mixed race and family in the English African diaspora Eurasian identity the emergence of a panethnic multiracial identity and movement mixed race in official statistics and mixed race and adoption policies Together these chapters bring to light the complexities of identity formation in today s multicultural societies Annotation copyrighted by Book News Inc Portland OR
