The Gracing of Human Experience Donald L. Gelpi,2008-04-01 This study ponders different ways Christian thinkers understood humanity in its relationship to divine grace It names fallacies that have in the past skewed theological understanding of that relationship It argues that the philosophy of Charles Sanders Peirce avoided those same fallacies and provides a novel frame of reference for rethinking the theology of grace The author shows how the insights of other American philosophers flesh out undeveloped aspects of Peirce s thought He formulates a metaphysics of experience derived from his philosophical analysis Finally he develops an understanding of supernatural grace as the transmutation and transvaluation of human experience **Logos and Mystical Theology in Philo of Alexandria** David Winston,1985 **The Doctrine of the Atonement** Lionel Spencer Thornton,1915 *The Doctrine of the Atonement* John Kenneth Mozley,1916 *The Publishers' Trade List Annual* ,1918 Hermeneutics, Intertextuality and the Contemporary Meaning of Scripture Ross Cole,Paul Petersen,2013-12-31 Did Matthew twist the Scriptures Where did Satan come from My Reading Questions and issues like these are presented in this selection of papers and presentations from a Bible conference at Avondale College on the broad topic of intertextuality More than 100 scholars and administrators convened and shared their research as well as their personal perspectives on how to read and apply holy Scripture in the 21st century This anthology contains a representative sample of their studies and reflections *The Secret Doctrine: Cosmogogenesis* Helena Petrovna Blavatsky,1893 **Philosophy of Religion for a New Century** Jeremiah Hackett,Jerald Wallulis,2004-04-30 Philosophy of Religion for a New Century represents the work of nineteen scholars presented at a conference in honor of Eugene T Long at the University of South Carolina April 5 6 2002 This volume is a good example of philosophy in dialogue there is both respect and genuine disagreement First an account of our present situation in the Philosophy of Religion is given leading to a discussion of the very idea of a Christian Philosophy and the coherence of the traditional concept of God The implications of science and a concern for the environment in our concepts of God are carefully examined A discussion follows on the possibility of speech about God and silence about God Since much of modern European philosophy is concerned with the Death of God theme the positions of Nietzsche and some of his twentieth century interpreters are presented There are presentations on Feminist Approaches to Philosophy of Religion and Comparative Religion is examined in relation to cultures and the demands of rationality The volume concludes with a critical dialogue on the relation of Religious Discourse to the Public Sphere Developing global awareness has led to significant change in the Philosophy of Religion One dimensional approaches have given way to honest dialogue The traditional boundaries between the secular and the religious have shifted and new approaches to traditional problems are required This volume presents examples of these new approaches God and Cosmos in Stoicism Ricardo Salles,2009-09-24 Nine new essays examine the close connection between theology and
