The Cosmopolitan Interior Judy Neiswander, 2008 Judy Neiswander explains that during these years liberal values individuality cosmopolitanism scientific rationalism the progressive role of the elite and the emancipation of women informed advice about the desirable appearance of the home In the period preceding the First World War these values changed dramatically advice on decoration became more nationalistic in tone and a new goal was set for the interior to raise the British child by the British hearth Neiswander traces this evolving discourse within the context of current writing on interior decoration writing that it is much more detached from social and political issues of the day

The Treatment of Interiors Eugene Clute, 1926

[Country Cottage Conservation](#) Bevis Claxton, 2014-11-30 Country Cottage Conservation is essential reading for everyone who loves rural cottages From simple DIY redecoration to employing architects and builders to tackle significant repairs this book is full of helpful information The author explains how cottage owners are able to protect and enhance their investment and discusses various repair and

redcoration options and their consequences The charm and long life of a traditional cottage comes from over a thousand years of building tradition that was almost forgotten in the twentieth century Modern materials and techniques are often expensively inappropriate as they can conflict with the buildings inbuilt defence mechanisms or make cottages look too modern yet it is still possible to repair a cottage economically with traditional methods and natural materials that work in harmony with the original construction The author also considers what may be done to redress the balance where inappropriate work has previously been carried out so as to restore some of the original performance to the cottage and help preserve its charm and value for the future Essential reading for everyone who loves country cottages and invaluable for those who want to maintain and repair their property in a sympathetic and sustainable way it is also superbly illustrated with 239 colour photographs
