

Case studies

We're all interested in what makes people tick, how they think, act and interact with others. That's why studying undergraduate Psychology – the science of human behaviour – is interesting in its own right.

Studying a degree in Psychology will enable you to develop a wide range of sought after transferable skills. The knowledge and skills gained allows you to take advantage of a variety of job opportunities in areas such as education, human resources, commercial industry, management, advertising and marketing, research, the health professions, counselling and social services. (Some of these require further professional and/or specialised training). Here are some case studies from OU Psychology graduates which demonstrates the value of OU study, both in enabling a career change and the opportunity to become a professional psychologist.

It was the year 2000 when I very proudly received my Open University BSc (Hons) Psych at the Birmingham Symphony Hall. This was the springboard into the career that I really wanted and led me into an MSc and Post Masters qualification for Chartership, working as an Associate Psychologist and researcher with a local university before setting up a private practice. It is now five years since I provided my case study for the OU, how the time really does fly. Throughout my studies and professional practice, my deep regard for the OU and pride at having been a part of such an academy has never waned. Indeed, I believe that in the current climate the OU is needed more than ever.

My private practice: MY Counselling & Psychology Services has been running for 8 years now. A strong network of providers and colleagues has developed during this time, which helps greatly in terms of support and practically in coping with the waiting list that I have to manage. I have been involved with bringing together a group of professional, highly trained and experienced mind and body therapists at a holistic centre in Essex and this has become a thriving and busy community.

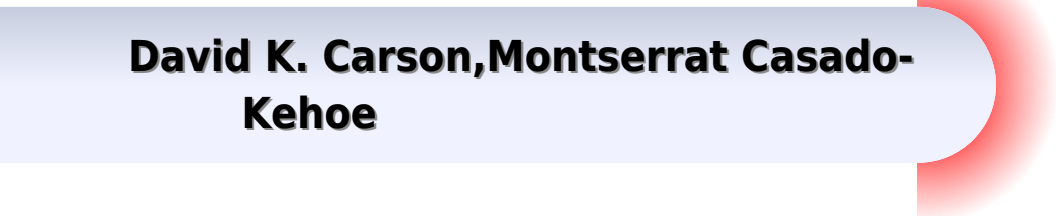

In 2010 I decided to undertake a Professional Doctorate in which I am exploring the cultivation and integration of self-compassion into personal and professional practice. One of my supervisors recently reminded me about the work of Mead and I found myself diving into my OU course books – which I won't part with – it was a happy reunion.

I have also trained as a teacher in Mindfulness Based Stress Reduction and Mindful Self-compassion, which has deeply enriched how I work and what I can offer to my clients. My work and continuing education has taken me all over the UK, Europe and in November 2014 to Boston in the US to present the initial stages of my Doctoral research.

Self-care is central to being able to do my job and keeping well and so I make sure that this

Contemporary Case Studies in School Counseling Marguerite Ohrtman,Erika Heltner,2019-07-17 Contemporary Case Studies in School Counseling is not a guide to school counseling but rather a conversation starter on the challenges that school counselors face on a daily basis From cyber sexting to unmotivated students to anxiety disorders school counselors must be ready for the unexpected Throughout the sixteen case studies readers will be guided through therapies strategies and solutions from a school counselor s perspective Readers are given a first hand look into the rationale biases and experiences that guide the counseling process From the perspective of a school counselor readers will be vividly drawn into the varying situations and approaches for each case study guided through various therapy approaches and given questions for discussion in small groups or large classrooms This book will help train better school counselors as the audience will be presented with current situations and problems that school counselors face in the twenty first century *Case Studies in Child and Adolescent Counseling* Larry B. Golden,2002 This award winning book presents a realistic picture of therapy s rewards and challenges through sixteen actual cases involving children and adolescents Readers are exposed to a variety of counseling theories and the real live counselors who use them The cases deal with major problem areas such as sexual abuse dual diagnoses seriously dysfunctional families and addictions A five part organization of each case covers an introduction that discusses the presenting problem and background information about the client conceptualization of therapeutic goals and strategies process descriptions of actual client contacts it explains what happened in sessions and how the therapist s relationship with the client changed over time outcome sections describing the result of the work done between therapist and client and discussion explanations of what the author therapist might have done differently In addition the author describes his or her personal and professional growth that resulted from this encounter with a troubled youngster For child and adolescent counselors beginning their journey as therapists

Case Studies in Mental Health Treatment Robert Kalina,2021-05-13 The key aims of this text are to illustrate the use of various types of mental health treatments and to provide in depth examples of common psychological disorders supported by case studies The 34 journal articles in this book authored by practicing psychotherapists psychiatrists psychoanalysts and counselors describe the treatment of individual clients In most

cases the authors discuss a client's psychological problem, the treatment used with the client, and the outcome. This book is designed for use in courses in clinical counseling and abnormal psychology. Each article is followed by 1. a list of psychological terms for classroom discussion and 2. questions that call for students' opinions on various aspects of the case.

Case Studies in Counselor Education Melinda M. Gibbons, Casey Barrio Minton, 2024-03-20. *Case Studies in Counselor Education* provides readers with a comprehensive examination of various themes fundamental to counselor preparation guided by the CACREP 2024 Foundational Curricular Standards and ensuring alignment with current educational standards and practices within the discipline. The text is divided into two main sections. The first lays groundwork with an introduction to learning theories, approaches, and taxonomies within counselor education. The second part features a series of contributed case studies aligned with specific curricular areas such as professional counseling orientation and ethical practice, social and cultural identities and experiences, lifespan development, group counseling, assessment, counseling practice, and career development. Each case study aims to stimulate critical thinking and practical application of counseling concepts through real-world scenarios and reflective questions. Offering a relevant hands-on learning experience, *Case Studies in Counselor Education* is an exemplary resource for aspiring and practicing counselor educators and supervisors.

Case Studies in Counseling Older Adults Larry B. Golden, 2009. In *Case Studies in Counseling Older Adults*, Larry Golden addresses a growing trend: older adults presenting for counseling and the techniques that may be used to help treat them. Golden has selected case studies that highlight many common issues faced by older adults today, such as loss of a spouse, health, financial means, depression, and spirituality. The organization of the cases provides the reader with a sense of the contributors' environment, the clients' contextual issues (i.e., family, economics, health), the clients' presenting problems, and the therapeutic strategies implemented. This book is a valuable resource to counselors who are seeking to enhance their expertise with innovative approaches to counseling older adults.

Case Studies in Couples Therapy David K. Carson, Montserrat Casado-Kehoe, 2013-06-19. This up-to-date, highly readable, theory-based and application-oriented book fills a crucial void in literature on couple therapy. Few books in the couple therapy market bridge the gap between theory and practice. Texts tend to lean in one direction or the other: either emphasizing theory and research with little practical application, or taking a cookbook approach that describes specific techniques and interventions that are divorced from any conceptual or theoretical base. However, couples therapy requires a high degree of abstract conceptual

thinking as well as ingenuity inventiveness and skill on the part of the therapist Case Studies in Couples Therapy blends the best of all worlds clinical applications with challenging and diverse couples that have been derived from the most influential theories and models in couples and family therapy all written by highly experienced and respected voices in the field In Case Studies in Couples Therapy readers will grasp the essentials of major theories and approaches in a few pages and then see how concepts and principles are applied in the work of well known clinicians The case studies incorporate a wide variety of couples from diverse backgrounds in a number of different life situations It is simultaneously narrow including specific processes and interventions applied with real clients and broad clearly outlining a broad array of theories and concepts in scope and the interventions in it are directly linked to theoretical perspectives in a clear and systematic way Students and clinicians alike will find the theoretical overview sections of each chapter clear and easy to follow and each chapter s thorough descriptions of effective practical interventions will give readers a strong sense of the connections between theory and practice

Case Studies in Behaviour Therapy H. J.

Eysenck, 2013-11-26 Originally published in 1976 and on the basis of extended case histories Eysenck showed how experts dealt with problems which arose in the course of behaviour therapy It showed how they formulated hypotheses about causation and treatment and used these to structure the methods employed and how they changed their hypotheses when treatment showed them to have been mistaken The prime aim was to demonstrate the complexities involved in even apparently simple cases and the need to base treatment on a proper understanding of the dynamics of the case All the articles were specially written for this book the purpose being to underline the need to state the dynamics of a case in such a form that they could be used as hypotheses leading to specific treatment recommendations The hypotheses were tested by the success or failure of the treatment thus making the treatment of individual patients a proper experimental procedure Behaviour therapy emphasises the fundamental importance of the outcome problem and only experience can teach the behaviour therapist just how this interplay of theory formulation and design of location evaluation of effect and changes in theory works in actual practice The book will help those engaged in this type of therapy to understand the process better and to gain a quicker mastery of the technique **International Case Studies in Mental Health** Senel Poyrazli, Chalmer E. Thompson, 2012-04-30 This title examines mental health treatment around the globe The book represents countries from around the world and features interviews with mental health practitioners from around the world Each chapter will have a US expert and an international expert
