

Country Girls

Rachel Sandford

Country Girls:

Honor My Father Clint Nye, 2019-07-31 Honor My Father is a true story of how college men came to the US Navy as reservists instructed by the officers from Annapolis and teamed together. It brings their many personal stories of interactions with my dad, Air Defense Commander, serving on two destroyers, USS Bancroft. It describes how as a new professor working on his Ph.D., this writer entered his teenage years while the two of us moved from the city of Chicago to the small town of Athens, Ohio. After his war experiences, he experienced nothing like the big guns going off in his ear until the hard pounding drums from my new rock and roll band.

Gender, Media and Modernity in the Asia-Pacific Catherine Driscoll, Meaghan Morris, 2015-10-14 This collection offers a range of cultural studies perspectives on the ways gender and modernity intersect in media produced in the Asia Pacific region. It spans different ideas about modernity in the region, different approaches to cultural analysis, and different media forms from Taiwanese lifestyle television to avant garde Indian cinema, from the emergence of a Chinese youth culture in online social networks to the alienation of country girls as imagined by Australian soap opera and from the fantastic politics of migrating bodies in Korean cinema to the masculine mimicry of fighting women in South East Asian action movies. Together, these essays explore the ways that media both records and helps produce images and experiences of modernity and the integral role gender plays in those processes. This book was originally published as a special issue of Cultural Studies.

That's The Way She Is Archie Lee, 2017-09-26 This book contains material that will educate men and women on how to interact with each other through understanding and communicating. It provides insights on relationships and how to deal with the issues that come with them. It also provides a wealth of knowledge on the different types of women and their character personalities. It discusses how men and women interact with each other through understanding and communication, the challenges faced with dating and social interaction, sustaining marriage and platonic relationships. That's The Way She Is provides a male-centric point of view on the female character personalities types. The information revealed in this book is based on research as well as group discussions from a crowdsource of intellectual men and women with professional romantic and problematic relationship experiences. Obviously, many terms in this book can easily be considered chauvinistic and derogatory towards women. To be clear, I do not support the exploitation of women in any form. Nonetheless, the harsh fact remains that many in our society continue to use negative terms to describe various types of women, resulting in some women accepting them as the norm, internalizing and ultimately identifying themselves as such. My aim will be to thoroughly explain the meaning of these terms in a technical and constructive sense. One of my goals is to encourage all men to listen carefully to the women in our lives: mothers, sisters, daughters, girlfriends, and wives. I hope that reading this book makes as profound a difference in your life as writing it has in mine. May your relationships be successful and everlasting.
