**Schools, Violence, and Society** Allan M. Hoffman, 1996-05-30 This book is designed to examine issues related to schools violence and society Since the 1960s crime and violence have been

increasing in America's schools. This violence is not limited to inner city schools but has struck virtually every strata and socio-economic level of American culture and society. The prevalence of crime and violence occurring in our nation's schools has become the concern of policymakers on the national and state levels. Concern has spread to parents, educators, and students themselves. This edited volume reviews violence in society, school violence, and crime. Coverage includes past trends in school violence and describes the current extent of the problem as well as aspects of its causes and prevention. The influence on the students and community of gang activity, gang-related issues, drugs, alcohol, and weapons on campus is discussed.

Contributing authors utilize a wide variety of theoretical frameworks ranging from feminist empiricism through social constructionism to psychoanalysis to examine key feminist topics such as sexual violence, pornography, femininity and beauty, emotion, social class, and sameness/difference. They also demonstrate the use of a broad range of quantitative and qualitative methods in feminist research. These include questionnaires and rating scales, voice relational methods, discourse analysis, memory work, biography, focus groups, Q methodology, and meta-analysis. The eclecticism of this book makes it an ideal teaching text for undergraduate and postgraduate courses on social psychology, psychology of women, feminist psychology, gender issues, critical psychology, and research methods.
