Cosmic Trigger I Robert Anton Wilson, 2016-02-23 The great modern classic of a brilliant rebel's personal exploration into the nature of consciousness Featuring a New Introduction by John Higgs Cosmic Trigger deals with a process of deliberately induced brain change This process is called initiation or vision quest in many traditional societies and can loosely be considered some dangerous variety of self psychotherapy in modern terminology I do not recommend it for everybody briefly the main thing I learned in my experiments is that reality is always plural and mutable Robert Anton Wilson from the Preface The Robert Anton Wilson Trust Authorized Hilaritas Press Edition *Cosmic Trigger* Robert Anton Wilson, 1987-02

Cosmic Trigger Robert Anton Wilson, 1977 *Final secret of the illuminati* Robert Anton Wilson, 1977 Cosmic Trigger III Robert Anton Wilson, 1995 This the long awaited third volume of the Cosmic Trigger series includes Wilson's witty and humorous observations about the widely spread and happily premature announcement of his demise And of course what Wilson masterpiece would be complete without synchronicities religious fanatics UFOs crop circles paranoia pompous scientists secret societies high tech black magic quantum physics hoaxes real and fake Orson Welles James Joyce Carl Sagan Madonna and The Vagina of Nuit Conspiracy Theories Mark Fenster, 2008-07-29 JFK Karl Marx the Pope Aristotle Onassis Howard Hughes Fox Mulder Bill Clinton both George Bushes all have been linked to vastly complicated global or even galactic intrigues Two years after Mark Fenster first published Conspiracy Theories the attacks of 9 11 stirred the imaginations of a new generation of believers Before the black box from United 93 had even been found there were theories put forth from the implausible to the offensive and outrageous In this new edition of the landmark work and the first in depth look at the conspiracy communities that formed to debunk the 9 11 Commission Report Fenster shows that conspiracy theories play an important role in U S democracy Examining how and why they circulate through mass culture he contends helps us better understand society as a whole Ranging from The Da Vinci Codex to the intellectual history of Richard Hofstadter he argues that dismissing conspiracy theories as pathological or marginal flattens contemporary politics and culture because they are contrary to popular portrayal an intense articulation of populism and at their essence are strident calls for a better more transparent government Fenster has demonstrated once again that the people who claim someone's after us are at least worth hearing **High Weirdness** Erik Davis, 2019-11-05 An exploration of the emergence of a new psychedelic spirituality in the work of Philip K Dick Terence McKenna and Robert Anton Wilson A study of the spiritual provocations to be found in the work of Philip K Dick Terence McKenna and Robert Anton Wilson High Weirdness charts the emergence of a new psychedelic spirituality that arose from the American counterculture of the 1970s These three authors changed the way millions of readers thought dreamed and experienced reality but how did their writings reflect as well as shape the seismic cultural shifts taking place in America In High Weirdness Erik Davis America's leading scholar of high strangeness examines the published and unpublished writings of these vital iconoclastic thinkers as well as their own life

changing mystical experiences Davis explores the complex lattice of the strange that flowed through America's West Coast at a time of radical technological political and social upheaval to present a new theory of the weird as a viable mode for a renewed engagement with reality American Gurus Arthur Versluis, 2014 Versluis shows how the convergence of Asian religions and Western mysticism produce the contemporary phenomenon of spontaneously enlightened gurus in America
