Behind the Cosmic Veil Thomas P. Fusco,2011-08-01 Throughout modern history humanity has made remarkable strides toward unraveling the secrets of the universe Yet in spite of these impressive scientific achievements certain fundamental mysteries continue to evade both our powers of reason and our modern physics Among these are Is there a Divine Order within the cosmos What are the causes behind the bizarre events known as the paranormal Are anti gravity time travel and teleportation possible or are they just food for fantasy How was matter created from the void Is there a gateway to a higher dimension and what does it look like Is dark matter real and why can t we see it How did life originate on earth Could UFOs really be advanced spacecraft And how does religion and spirituality fit into all this Questions like these have long confounded scientists philosophers and ecclesiastics alike Efforts to solve these riddles have often suffered from too narrow a focus such as those that attempt to describe telepathy or consciousness in terms of quantum theory while overlooking the vast body of other unexplained phenomena None have led us to a single cosmological framework that can accommodate the wealth of scientific anomalies spiritual experiences and paranormal events that are observed and recorded Now for the first time BEHIND THE COSMIC VEIL cracks the cosmic code of creation with a bold new Theory of Everything that encompasses all these mysteries and many more In this groundbreaking work author Thomas P Fusco employs a revolutionary approach to uncover the underlying cosmic matrix connecting contemporary physics the human psyche paranormal phenomena and long established religious principles then weaves it into an entirely new model of reality never before described that not only joins these disciplines into a single greater system but explains in plain English the enigmas of our time in a sensible consistent and scientific way This extraordinary model foretells the coming of a future super technology by which we might spontaneously create anything we can imagine BEHIND THE COSMIC VEIL opens the door to a whole new way of looking at both our inner selves and the universe around us where the boundaries between mind faith physics and the supernatural become indistinguishable This book is a must read for anyone who has ever pondered the deeper meaning of existence FOR MORE INFORMATION including the latest news related articles author s blog and sample chapter go to www.cosmicveil.com

know best The writing itself became a journey I traveled deep into a valley of fear and doubt and then found my way out On the way I was reminded of my life purpose to be a spirit whose light shines also on the path of others poking them in the butt with a Go for it This life is yours here and NOW However my transformation is not a one sided proposition There are over six billion people living on this planet Each of us is able to read the signs and find the courage to create an amazing life story if only we will Together we can discover the nature of this universe as it reveals itself to us and through us When I was writing this book at my home in beautiful downtown Vancouver an eagle often circled the building in which I lived visiting many times Then one day when I was at a low point and doubting my direction a coyote also came to visit Sitting on the grass across the street it looked toward me as if encouraging me on City workers came a few days later and placed a sign directly in front of that building Warning Coyote has been spotted here So led by the spirit of coyote eagle and the many other guides of the universe I was able to complete this tale Its primary message is about following the call of my body mind and spirit On my journey I agreed to fully own my place in life wherever I happened to be Although shadows sometimes hid the path I rejoiced on my way to the sun and the bright peaks beyond My wish is that you will be entertained and perhaps even inspired by my intentional walk Even though the experiences I describe may be difficult for some to believe others will know of what I write Whether this story brings you comfort or not my hope is that you will question your own experience to the same degree you may question mine As a wise old monk once told me Just take from this what works for you and leave the rest with us I invite you to do just that Everything that I write is based on my actual experience but in some cases composite characters facilitate the telling and protect the identity of others For example my dear friends in Burma are ruled by a cruel military that would not hesitate to cause them harm Their true identities must not be revealed If any good comes of this situation let it be increased public awareness of what is unacceptable and must come to an end I pray every day that a resolution may take place without the loss of more lives I have endeavored to recreate each scene in the book with as much accuracy as the veils of time and memory would permit Although certain details may have been distorted know that the main emphasis is still the overall message In the end this is all that matters
