**Trade in the 15th Century** Eileen Power, M.M. Postan, 2013-11-05 Of all the activities of the most neglected century in English History England's trade has received the least attention in proportion to its importance It was obviously in the course of the later Middle Ages and more particularly in the fifteenth century that there took place the great transformation from medieval England isolated and intensely local to the England of the Tudor and Stuart age with its world wide connections and imperial designs It was during the same period that most of the forms of international trade characteristic of the Middle Ages were replaced by new methods of commercial organization and regulation national in scope and at times definitely nationalistic in object and that a marked movement towards capitalist methods and principles took place in the sphere of domestic trade Yet little has been written concerning English trade in this period First published in 1933 this classic volume goes a long way to fill this gap superbly There is an abundance of material and the writers have compiled a statistical analysis of the Enrolled Customs Account from 1377-1482 which provides an essential measure of the nature volume and movement of English foreign commerce during the period     Fifteenth-Century Studies Edelgard E. McDonald, Edelgard E. DuBruck, 2000-03 Founded in 1977 as the publication organ for the Fifteenth Century Symposium

Fifteenth Century Studies has appeared annually since then. It publishes essays on all aspects of life in the fifteenth century including medicine, philosophy, painting, religion, science, philology, history, theater, ritual, and custom, music, and poetry. The editors strive to do justice to the most contested medieval century, a period that is the stepchild of research. The period defies consensus on fundamental issues; some dispute in fact whether the fifteenth century belonged to the Middle Ages at all, arguing that it was a period of transition, a passage to modern times. At issue therefore is the very tenor of an age that stood under the tripartite influence of Gutenberg, the Turks, and Columbus. Volume 25 offers a rich palette of art, theology, literature, and aesthetics of the 15th century, ranging geographically from the British Isles to Tibet and thematically from witch trials and beast epic to early modern science and a definition of courtliness. Four studies on theatre make dramatic art the point of emphasis in volume 25: Clifford Davidson's on mystery plays, Jörn Bockmann and Judith Klingner's on the English *Secunda pastorum*, Michelle M. Butler's on the York and Townley pageants, and Jean Marc Pastr's on the carnival plays. Included as standard features are Edelgard DuBruck's article on the current state of fifteenth century research and a book review section. William C. McDonald is professor of German at the University of Virginia; Edelgard E. DuBruck is professor in the Modern Languages Department at Marygrove College, Detroit, Michigan.

**Fifteenth-Century Studies 35** Matthew Z. Heintzelman, Barbara I. Gusick, Martin Walsh, 2010-03. Annual volume of essays treating topics ranging from physical impairment to narrative afterlife and time. The fifteenth century defies consensus on fundamental issues; most scholars agree, however, that the period outgrew the Middle Ages, that it was a time of transition and a passage to modern times. *Fifteenth Century Studies* treats diverse aspects of the period, including liberal and fine arts historiography, medicine, and religion. Volume 35 addresses topics including physical impairments as depicted in surgical handbooks printed in Germany and as reflected through eyeglasses for the blind, a therapy proposed by French vernacular poets, literary constructions of women in de Meun's *Cité des Dames* and in hagiographic legends of Spain, the evolution of the Order of the Garter as dramatized in Shakespeare, serious elements in French farces, the festival context of Villon's *Pet au Deable*, Boethius in the late Middle Ages, A Revelation of Purgatory, and Chaucer's Prioress, Piers Plowman in one British Library manuscript, and narrative afterlife and time in Henryson's *Testament of Cresseid*. Book reviews conclude the volume. Contributors: Milagros Alameda Irizarry, Chiara Benati, Edelgard E. DuBruck, Rosanne Gasse, Chelsea Honeyman, Noel Harold Kaylor Jr., James N. Ortego II, E. L.
